*The UNC Department of Environmental Sciences and Engineering presents their Centennial Seminar Series:*

# The Perils of PFAS

## FRIDAY, FEBRUARY 12 • 12:00 P.M. ET (ZOOM)

**PRESENTER**

### Linda S. Birnbaum, PhD, DABT, ATS

As a board-certified toxicologist, Birnbaum served as a federal scientist for 40 years. Prior to her appointment as director for the National Institute of Environmental Health Sciences and the National Toxicology Program in 2009, she spent 19 years at the U.S. Environmental Protection Agency (EPA), where she directed the largest division focusing on environmental health research.
