University of California San Diego (UCSD)

2022 – Present **ADJUNCT ASSISTANT PROFESSOR, Health Policy and Management (HPM)**
UNC-Chapel Hill Gillings School of Global Public Health

2020 – Present **VISITING ASSISTANT PROFESSOR, Center for AIDS Prevention Studies (CAPS)**
Prevention Science, Department of Medicine
University of California, San Francisco (UCSF)

- Participated in intensive Training Program for Scientists Conducting Research to Reduce HIV/STI Health Disparities in the United States.

2017 – 2022 **ASSISTANT PROFESSOR, Public Health Leadership Program (PHLP)**
SOCIO-BEHAVIORAL RESEARCHER, HIV Cure-Related Research
UNC-Chapel Hill Gillings School of Global Public Health

- Lead instructor for global health courses in the Public Health Leadership Program (PHLP) and Global Health Concentration, including:
  - Introduction to Global Public Health (SPHG 700) (online)
  - Global Health Ethics – for Global Health Concentration (PUBH 710) (residential)
  - Critical Issues in Global Health (PUBH 711) (residential and online)
  - Global Health Ethics (PUBH 712) (online)
  - AIDS Course (PUBH 725) (online)
- Lead socio-behavioral scientist on HIV cure-related clinical trial protocols and collaborations

2016 **ADJUNCT ASSISTANT PROFESSOR, Public Health Leadership Program (PHLP), UNC-Chapel Hill Gillings School of Global Public Health**

- Lead instructor for global health courses in the Public Health Leadership Program (PHLP) and Global Health Concentration, including:
  - Introduction to Global Public Health (SPHG 700)
  - Global Health Ethics (PUBH 712)

2016 – 2017 **CONSULTANT/CO-INVESTIGATOR, Social and Ethical Aspects of HIV Cure Research (searcHIV), UNC-Chapel Hill, Chapel Hill, NC**

- Leading inter-disciplinary research and publications related to the social sciences of HIV cure research in the United States.

2016 **CLINICAL PROJECT MANAGER, ClinicalRM, Chapel Hill, NC**

- Managed all aspect of complex Ebola research program funded by the Bill and Melinda Gates Foundation in West Africa, with a special focus on natural history study of Ebola Virus Disease (EVD) in Monrovia, Liberia.
- Managed the UNC – ClinicalRM – Duke – USAMRIID Ebola Research Consortium.

2013 – 2015 **RESEARCH PROGRAM MANAGER, Institute of Global Health and Infectious Diseases (IGHID), Collaboratory of AIDS Researchers for Eradication (CARE), The University of North Carolina at Chapel Hill, NC.**

- Managed a large NIH-funded Collaboratory compromised of 20+ scientists from 10+ universities in the United States and Europe ($USD 6.4 million/year) whose main objective was to pursue a concerted effort to eradicate HIV infection by bringing a team of experts together in discovery and development to create a cure for AIDS. The Administrative Core was a key component for the success of the Collaboratory by overseeing the various activities of the research program and providing infrastructure and coordination between the various scientific groups and the scientific cores.
- Designed and managed an international HIV cure research training curriculum (CUREiculum) with partner organizations such as DARE, defeatHIV, Project Inform, and AVAC.
- Built networks between the HIV+ community and the scientists working on HIV cure-related research, convening meetings of community advisory boards, disseminating information, and providing community feedback to the scientists on their research.

2012 – 2013 **CLINICAL RESEARCH ASSOCIATE III, U.S. Military HIV Research Program (MHRP)/Henry M. Jackson Foundation for the Advancement of Military Medicine, Inc. (HJF), Bethesda, MD.**

- Managed site and cohort development program in preparation for future prime-boost HIV vaccine trials in Mozambique, transitioned project to U.S. Department of Defense and U.S. National Institutes of Health Division of AIDS funding streams, developed and designed HIV incidence research in Mozambique, prepared manuscripts for Mozambique scientific journal articles, assisted in the preparation of the U.S. Military HIV Research Program Clinical Trials Unit application for the U.S. NIH DAIDS Clinical Research Sites re-competition, developed standard operating procedures for MHRP Clinical Operations Office.

2008 – 2012 **SENIOR RESEARCH ASSOCIATE, FHI 360 (formerly Family Health International), Research Triangle Park, NC.**

- Developed, designed and oversaw major components of studies in infectious diseases, oversaw research implementation activities in the field, prepared scientific reports, collaborated with team members and field investigators throughout all phases of research, oversaw submissions to ethical and institutional review boards, developed and monitored financial aspects of studies, provided technical oversight for preparation of proposals, protocols, research instruments and study procedures manuals, developed and reviewed protocols and study-related materials for assigned clinical research studies, oversaw clinical monitoring of studies, ensured that research was conducted in accordance with applicable federal regulations and FHI 360 policies and standard operating procedures, participated in clinical monitoring of studies, trained junior research staff in clinical research monitoring and management, assisted in development of research proposals and business development.

2007 – 2008 RESEARCH AND PROGRAM ANALYST, amfAR – The Foundation for AIDS Research, Washington, DC.

- Researched and analyzed biomedical and behavioral research results, and compiled research developments pertaining to HIV/AIDS prevention, treatment, care, and policy.
- Co-authored issue briefs, fact sheets and policy briefs on various topics related to HIV/AIDS.
- Developed a strategic plan for the public policy department.
- Assisted in the planning, development, and execution of amfAR's programmatic activities.
- Represented amfAR at meetings and conferences and promoted amfAR's positions and policy priorities to colleague organizations and government agencies, including USAID, National Institutes of Health (NIH), and Office of the Global AIDS Coordinator.
- Provided technical assistance to amfAR's Therapeutics Research, Education and AIDS Training (TREAT) Asia program.
- Created and maintained libraries of articles on several topics related to HIV/AIDS for the organization.
- Conducted training workshops on HIV/AIDS-related issues; supervised 5 junior staff.

2006 – 2007 PROGRAM COORDINATOR, Health Strategies International, LLC, Durham, NC.

- Conducted consultancy work on human resources for malaria scale-up activities for the Bill and Melinda Gates Foundation/PATH Malaria Control and Evaluation Partnership (MACEPA) project in Zambia.
- Provided technical assistance on USAID-funded Jamaica Health Lifestyle Project and USAID-funded Romanian Health Care Reform Project.
- Maintained project budgets and reviewed work plans, project timelines and scopes of work.
- Acted as Manager of Business Development. Assisted in the preparation of project proposals, including a successful sub-contract on USAID/PATH TASC 2 Global Tuberculosis Task Order.
- Expanded business relationships with partner organizations and donors. Created a database of business opportunities and enrolled the company with funders' email list servers.
- Supervised 4 in-country staff.

2005 – 2006 SENIOR RESEARCH ASSISTANT, Family Health International, Research Triangle Park, NC.

- Clinical monitor for African sites conducting 6% Cellulose Sulfate gel phase III trial. Verified source data, wrote and resolved queries using electronic databases, reviewed the quality and integrity of data collected from the sites.
- Maintained regulatory documents for multiple study sites and ensured that the study was in accordance with GCP and other international clinical guidelines.
- Served as the primary contact and coordinated correspondence between the study sites, the sponsors and the in-house staff.
- Reviewed documents for successful implementation, coordination and management of study projects.

CONTRACTS AND GRANTS

Ongoing Research Support

03/01/2022 – 02/28/2023 (10% effort)
Site Preparedness Activities for Research on Post-Intervention Control of HIV in Durban, South Africa
Gilead Sciences, Inc. Public Affairs Grant
Role: *Principal Investigator*

09/01/2021 – 08/31/2026 (35% effort)
Investigating Psychosocial Experiences of HIV Cure Trial Participants Undergoing Extended HIV Treatment Interruptions: Implications for Ethical Conduct (R01 MH126768)
Role: *MPI* (with Dr. John Sauceda, UCSF)

07/01/2021 – 06/30/2026 (10% effort)
BEAT-HIV Delaney Collaboratory Social Sciences and Ethics Working Group (UM1 AI164570)
Role: *Lead Socio-Behavioral Scientist*

06/01/2021 – present (0% effort)
An Observational Post-Intervention Control (PIC) Destination Cohort (ACTG 5385)
Role: *Socio-Behavioral Scientist*

04/01/2021 – present (0% effort)
UCSF SCOPE Analytical Treatment Interruption in HIV Infection
Role: *Socio-Behavioral Scientist*

04/01/2021 – present (0% effort)
A Phase I/IIa Randomized, Placebo-Controlled Trial of Conserved-Mosaic T-Cell Vaccine in Combination with Vesatolimod and Broadly Neutralizing Antibodies in Adults Initiated on Suppressive Antiretroviral Therapy during Acute HIV-1 (ACTG 5374)
Role: *Socio-Behavioral Scientist*

04/01/2021 – present (0% effort)
Safety and Anti-HIV Activity of Autologous CD4+ and CD8+ T Cells Transduced with a Lentiviral Vector Encoding BI-Specific anti-gp-120 CAR Molecules (LVgp120duoCAR-T) in Antiretroviral-Drug Treated HIV-1 Infection
Role: *Socio-Behavioral Scientist*

02/01/2021 – present (0% effort)
A Phase 2A Study to Evaluate the Safety and Tolerability of a Regimen of [CONFIDENTIAL] in Early Antiretroviral-Treated HIV-1 Clade C Women Living with HIV
Role: *Socio-Behavioral Scientist*

01/01/2021 – 12/31/2021 (0% effort)
Evaluating the Impact of Incentives on Clinical Trial Participation (DECIPHER) – in collaboration with the University of California Riverside (funded by Merck & Co, Inc.)
Role: *Advisor*

01/01/2021 – 06/01/2021 (0% effort)
Primary HIV Health Care Provider Perceptions of HIV Cure-Related Research (Seattle, WA, USA)
Role: *Socio-Behavioral Scientist*

09/01/2020 – 08/31/2021 (0% effort)
Qualitative Approach to Assess Understanding and Acceptability of HIV Cure-Related Research Strategies among HIV Serodiscordant Couples in the United States
Role: *Socio-Behavioral Scientist*.

07/01/2020 – 03/31/2022 (5% effort)
A Pilot Study to Evaluate Alternative Viral Load Tests during Analytical Treatment Interruptions in HIV Cure-Directed Trials: Reliability and Acceptability of Home Test Measures
Role: *Lead Socio-Behavioral Scientist*

05/01/2020 – 04/31/2022 (10% effort)
Perceptions of Risks and Benefits of Participating in HIV Cure-Related Research among Diverse Youth and Young Adults Living with HIV in the United States (R21 MH 122280) (with Dr. Parya Saberi, UCSF)
Role: Co-Investigator

11/01/2019 – present (0% effort)
A Phase I Study to Evaluate the Safety and Antiviral Activity of Two Human Monoclonal Antibodies (VRC07-523LS and PGT121LS) Administered to HIV Infected Participants Who Initiated ART During Acute or Chronic HIV-1 Infection, AIDS Clinical Trials Group (ACTG) Study 5389
Role: *Socio-Behavioral Scientist*

07/01/2019 – present (5% effort)
A Pilot Phase I Randomized Study to Evaluate Innate Immune Activation Predictors of Sustained Viral Control in HIV-Infected Adults Undergoing a Brief Analytical Treatment Interruption after the Administration of Pegylated Interferon Alpha 2b in Combination with Two Intravenous Broadly HIV-1 Neutralizing Antibodies 3BNC117 and 10-1074 (BEAT-HIV Collaboratory)
Role: *Socio-Behavioral Scientist*

05/01/2019 – 03/31/2022 (30% effort)
Pilot Integration of Participant-Centered Outcomes in HIV Cure Research in the United States: Implications for Ethical Conduct (R21 MH118120)
Role: *Principal Investigator/Project Director*

10/01/2018 – TBD (10% effort)
Combinatorial Therapy with [CONFIDENTIAL]: A Pilot Study Aimed at Inducing an HIV Remission, UCSF/amfAR Institute for HIV Cure Research.
Role: *Socio-Behavioral Scientist*

08/01/2018 – TBD (0% effort)
A Phase 1, Open-Label, Study of the Safety, Pharmacokinetics and Ability to Durably Prevent Viral Relapse During a Monitored Analytical Treatment Interruption of a Combination of the Broadly Neutralizing Antibodies 3BNC117-LS and 10-1074-LS, AIDS Clinical Trials Group (ACTG) Study 5364
Role: *Socio-Behavioral Scientist*

08/01/2017 – 07/31/2022 (5% effort)
Revealing Reservoirs during Rebound (R3) and Last Gift Cohort, University of California San Diego, P01AI131385
Role: *Socio-Behavioral Scientist*

08/01/2017 – TBD (0% effort)
Identification of Biomarkers to Predict Time to Plasma HIV RNA Rebound and Post-Treatment Viral Control during an Intensively Monitored Antiretroviral Pause (IMAP), AIDS Clinical Trials Group (ACTG) Study 5345/5347s
Role: *Socio-Behavioral Scientist*

07/01/2017 – Present (0% effort)
Community-Engaged Study to Assess Willingness to Participate and Take Risks in HIV Cure Research in the United States
Role: *Principal Investigator*

Completed Research Support

05/05/2020 – 03/31/2021 (20% effort)
Ethics Administrative Supplement to R21-MH118120: Advancing Empirical Research Ethics for HIV Cure Research
Role: Principal Investigator

10/01/2019 – 02/28/2021 (5% effort)
City of Hope (COH)/California Institute for Regenerative Medicine (CIRM) – Participant-Centered Outcomes for CMV-HIV Chimeric Antigen Receptor (CAR) T Cell Protocol (development phase)
Role: *Socio-Behavioral Scientist*

02/01/2019 – 6/30/2020 (0% effort)
The INSPIRE Project: Improve, Nurture and Strengthen Education, Collaboration, and Communication between People Living with HIV and REsearchers. In collaboration with the Australian Research Center in Sex, Health and Society, La Trobe University, Melbourne, Australia
Role: *Co-Investigator/Consultant/Socio-Behavioral Scientist*

08/01/2017 – 03/31/2020 (0% effort)
Selective Estrogen Receptor Modulators to Enhance the Efficacy of Viral Reactivation with Histone Deacetylase Inhibitors, AIDS Clinical Trials Group (ACTG) Study 5366
Role: *Socio-Behavioral Scientist*

07/01/2017 – 04/30/2019 (5% effort)
Clinical Sequelae and Urogenital Viral Dynamics in Survivors of Ebola Virus Disease in Liberia NIH R01 AI123535
Role: Research Support

03/01/2017 – 07/31/2017 ($USD 10,000 direct)
Gilead Sciences/Project Inform
Social Sciences of HIV Cure Research in the United States
Role: Co-Investigator

Role: Co-Lead

Previous Work Experience and Research Protocol Involvement

Clinical Trial Program Management of Collection of Ebola Virus Disease (EVD) Convalescent Plasma (ECP) and Longitudinal Clinical and Serosurvey of EVD Survivors, Monrovia, Liberia (2016)
Clinical Program Manager
Responsibilities include management of research program funded by the Bill and Melinda Gates Foundation, development of critical study documents including protocol, review of scientific literature, elaboration of implementation plans per ICH/GCP, generation of study procedures, processes and documents, overall project and program operational management, supervision of local research site staff, effective communication with sponsor, biomedical scientists and research site. Funded by the Bill and Melinda Gates Foundation, Seattle, United States.

Creation and Implementation of the CUREiculum (HIV Cure Research Training Curriculum) (2014 – present)
Co-Chair/Co-Founder
Responsibilities include defining strategic vision, management of relationships with scientific leads, community leads and colleague organizations, development of training modules, including PowerPoint teaching sets, participatory activities and events, pre-/post-test assessments, webinar discussions and town hall meetings around the United States. The CUREiculum provides basic knowledge on a range of HIV cure research-related topics, promotes the ethical development and implementation of HIV cure studies, and strengthens community capacity to participate in and make decisions around HIV cure research. The CUREiculum is a collaborative project aimed at making HIV cure research accessible to the community and the HIV research field (https://www.treatmentactiongroup.org/cure/cureiculum-2-0/). Funded by NIH DAIDS, Bethesda, United States.

Program Management of the Collaboratory of AIDS Researchers for Eradication (CARE) (2013 – 2015)
Research Program Manager
Responsibilities included provision of strategic and administrative direction to a large U.S. National Institutes of Health (NIH) Division of AIDS (DAIDS)-funded Collaboratory comprised of 20+ scientific projects from 10+ universities in the United States and Europe, together with industry partner Merck Inc. Main tasks pertained to overall grant management, fiscal management and oversight for cooperative agreement, management of internal communications including webinar series, coordination of scientific groups, production of operational reports and updates, coordination of external communications, including CARE Scientific Advisory Board, NIH, CARE Community Advisor Board (CAB) and other Martin Delaney Collaboratories, planning of face-to-face meetings; knowledge management including CARE-related publications and website, regular assessment of CARE investigators' research progress, outcomes and collaboration; management of shared resources and reagents and coordination of legal and intellectual property rights agreement. The major focus of the CARE is on the development and testing of therapeutic interventions to eradicate latent HIV infection (www.delaneycare.org). Funded by the NIH DAIDS, Bethesda, United States.

Cohort and Site Development to Assess the Incidence of HIV Infection, Retention Rate, and Willingness of Adults to Participate in Future HIV Vaccine Trials in Mozambique (2012 – 2013)
Lead Clinical Research Associate
Responsibilities included site development and capacity building, project management and elaboration of implementation plans, development of critical project documents, writing of manuscripts and scientific journal articles, development of general and study-specific training curriculums for site and cohort development project, communications with external partners. Funded by U.S. Department of Defense (DoD) and NIH DAIDS, Bethesda, United States.

Clinical Site Development Initiative – Mozambique; Combined Cross-Sectional and Prospective Study for Measurement of HIV Incidence in Beira, Mozambique and in Chókwè, Mozambique (2008 – 2012)
Project Manager/Senior Clinical Research Manager/Technical Monitor
Responsibilities included site development and capacity building, management of study progress and implementation plans, development of critical study documents, submission for scientific and ethical reviews, elaboration and management of budgets and contracts, supervision of FHI 360/North Carolina and FHI 360/Mozambique staff, Good Clinical Practice (GCP) clinical monitoring, training of site staff, communication with external partners including the Amsterdam Institute of Global Health and Development (AIGHD)/AfrEVacc and the University of Pittsburgh (Beira), and the United States Military HIV Research Program (MHRP)/Henry M. Jackson Foundation for the Advancement of Military Medicine and the U.S. Centers for Disease Control and Prevention (CDC)/Mozambique. Funded by United States Agency for International Development (USAID); European and Developing Countries Clinical Trials Partnership (EDCTP), Amsterdam; U.S. MHRP, United States.

Project Management of Interactions between Antiretrovirals and Combined Oral Contraceptive Pills (2008 – 2012)
Co-Project Manager/Site Manager
Responsibilities included development of study documents, project management, supervision of clinical monitors, GCP clinical monitoring of research site (Reproductive Health and HIV Research Unit (RHRU), Johannesburg, South Africa; Makerere University, Mulago Hospital, Kampala, Uganda). Funded by USAID, United States.

Clinical Trial Project Management of a Double-Blind Randomized Placebo Controlled Dose-Finding Trial to Investigate Different Doses of a New Antiviral Drug in Subjects with Genital Herpes Simplex Virus (HSV) Type 2 Infection – Phase II (2009 – 2011)
Co-Project Manager/Site Manager
Responsibilities included development of procedures, processes and study documents, overall project operational management, GCP clinical monitoring of two research sites (Virology Research Clinic (VRC), University of Washington, Seattle and Westover Heights Clinic, Portland). Funded by AiCuris GmbH & Co. KG, Germany.

Development of Assays for Acute HIV Infection and Estimation of HIV Incidence in Populations (2008 – 2010)
Project Coordinator
Responsibilities included organizing a meeting of experts on HIV incidence assays, generation of guidance documents on HIV incidence assays with the World Health Organization (WHO), development of HIV incidence library and management of sub-contracts. Funded by Bill and Melinda Gates Foundation, United States.

Project Management of Continuous versus Cyclic Use of Combined Oral Contraceptive Pills (2008 – 2012)
Co-Project Manager/Site Manager
Responsibilities included development of procedures, processes and study documents, project management, GCP clinical monitoring of two research sites (Profamilia Clinic Santo Domingo, Dominican Republic and Profamilia Clinic, Managua, Nicaragua). Funded by USAID, United States.

Clinical Trial Project Management of Medicines for Malaria Venture (MMV) Phase III Pyramax® trials (2008 – 2010)
Project Manager/Clinical Trial Specialist
Responsibilities included supervision of regional monitoring staff, management of project budgets, supervision of regulatory systems and project management of three malaria sister clinical trials in sub-Saharan Africa.

Clinical Trial Research Management and Monitoring of Randomized Controlled Trial of 6% Cellulose Sulfate Gel for Prevention of HIV – Phase III (2005 – 2006)
Clinical Research Manager/Monitor
Responsibilities included preparation of study documents, GCP clinical monitoring of African sites (Makerere University, Mulago Hospital, Kampala, Uganda; Medical Research Council (MRC), Durban, South Africa; Project SIDA, Cotonou, Benin). Funded by Bill and Melinda Gates Foundation and CONRAD, United States.
