I. Course Description:
Students will develop a basic understanding of nutritional concerns of older persons, be introduced to some of the biological changes of the body during the aging process, recognize dietary practices and nutritional needs specific to older individuals, and practice skills needed to develop and lead interventions with older adults. This one credit course is designed to introduce students to the knowledge and skills needed by dietitians and health practitioners to promote successful aging and minimize disease impact in the second half of life.

II. Instructor: Amanda Holliday, MS, RD, LDN
Office: 261 Rosenau Hall
Office Hours: Tuesdays, 10am-Noon, or by Appt.
Telephone: 966-7214
Email: Amanda_Holliday@unc.edu

III. Textbook Required Texts/Resources:
- Course pack for Nutrition 615
- For articles from the Journal of the American Dietetic Association that were published after January 1993 and are not included in the course pack, go to www.eatright.org/Public/On the left, link to ADA Journal; on the left link to Search the Journal; then at the bottom of the page, Search by Citation. Print them out if you want them.
- Position Papers are on line at www.eatright.org/Member/PolicyInitiatives/index_21012.cfm

Resource Texts:
- Nutrition Care of the Older Adult, 2nd Edition, American Dietetic Association, 2004

IV. Course Goals
Foundation Knowledge and Skills incorporated into this course
- Basic understanding of nutritional concerns of older adults
- Be introduced to the biological changes of the body during the aging process
- Recognize dietary practices and nutritional needs specific to older adults
- Practice skills needed to develop and lead interventions with older adults
- Learn how to promote successful aging and minimize disease impact in the second half of life

V. Attendance Policy
This is an upper level undergraduate and graduate student course. Students are expected to attend class regularly. Students are responsible for all material and assignments made or discussed in class whether they are in attendance or not. Students are expected to be in class on time with cell phones turned off. It is distracting to your fellow students and to the presenter when you come in late. It is also very distracting when you carry on your own conversations while the presenter is speaking.

VI. Learning Experiences

A. Class lectures/discussions
Material will be presented and discussed that will allow the student to develop a better understanding and respect/appreciation for aging and older adults. Participation in class discussions is expected and counts towards 20% of your grade.
B. Assignments
Written assignments will be made during the semester. They will vary in nature from practice in interpreting nutritional status to the evaluation of videotapes. Optional portions of these assignments will be identified and completion of these portions is voluntary depending on the grade desired by the student. A listing of the assignments and due dates is contained in this packet. All pages of assignments must be stapled or clipped together for your protection to prevent them from getting separated.

C. Assignment #1: Recipe
In 2005, the Administration on Aging had a national Kickoff named: **You Can!** [http://www.aoa.gov/youcan/youcan.asp](http://www.aoa.gov/youcan/youcan.asp) an (AoA) national campaign to encourage older adults that it is never too late to adopt healthier lifestyle practices. At senior events across the nation, older adults were encouraged to write 200 word essays about healthy aging practices. Your assignment is to write a **200** word essay describing your “recipe” for a healthy lifestyle using the following “ingredients”: eating habits, physical activity, spiritual/mental health, from your perspective as **70** year old.

D. Assignment #2: “Tell Me Your Story” Interview
Each student will identify an individual (≥ 70 years old) to complete a nutritional oral history interview. This individual may or may not be a family member. During the interview explore your interviewee’s eating habits, weight changes and theories of “Good Nutrition” during their lifetime. What do they remember about food, grocery shopping, meal preparation and food storage during their childhood? During the Depression? During their young adult years? How did this change when they got married? Retired? After the passing of a spouse? Summarize your interview and findings into a multi-media PowerPoint presentation using art, video clips, and newspaper articles. Submit the finished PowerPoint slides electronically.

E. Assignment #3: Case Study (take home)

F. Communication between students and the instructor is essential throughout the semester to communicate course concerns and to assist the instructor in developing effective teaching and learning strategies. All students are encouraged to ask questions of or talk with the instructor during or outside class. Questions and issues raised in email communications may be shared with the class if appropriate.
VII. Evaluation Criteria

Evaluation of student performance in this course will be based on a total of accumulated points according to the breakdown below:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Minimum</th>
<th>Maximum</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>97</td>
<td>100</td>
</tr>
<tr>
<td>A</td>
<td>93-96</td>
<td>100</td>
</tr>
<tr>
<td>A−</td>
<td>90-92</td>
<td>93</td>
</tr>
<tr>
<td>B+</td>
<td>87-89</td>
<td>90</td>
</tr>
<tr>
<td>B</td>
<td>83-86</td>
<td>87</td>
</tr>
<tr>
<td>B−</td>
<td>80-82</td>

<td>77-79</td>
<td>80</td>
</tr>
<tr>
<td>C</td>
<td>73-76</td>
<td>77</td>
</tr>
<tr>
<td>C−</td>
<td>70-72</td>
<td>73</td>
</tr>
<tr>
<td>D</td>
<td>60-69</td>
<td>70</td>
</tr>
<tr>
<td>F</td>
<td>≤69</td>
<td>≤70</td>
</tr>
</tbody>
</table>

Exam and Grade Policies
- If the assigned day date for an assignment is not good for the class in general, I will consider changing it. However, dates have been selected to allow for timely return of materials so that errors made and/or suggestions given can be incorporated into the next assignment or exam.
- Grading guidelines have been provided with assignments so you know what is expected of you. Assignments will be collected in class but are due no later than the end of the due day. Five points will be deducted from assignments for each day of unexcused lateness.
- Opportunities are provided during the semester for optional extra credit points. No one will be permitted to do additional work or outside assignments for extra credit after the semester.
- The Honor Code is in effect in this class and all others at the University. I am committed to treating Honor Code violations seriously and urge all students to become familiar with its terms set out at http://instrument.unc.edu. If you have questions, it is your responsibility to ask me about the Code’s application. All written work and other projects must be submitted with a statement that you have complied with the requirements of the Honor Code in all aspects of the submitted work.

VIII. Course Outline

1. W 1/14
   Intensions and format of the course
   Who are the Aging?
   Blackboard:
   Internet Video: Frontline: Living Old (watch the full program/6 Chapters, 60 mins)
   Be prepared to discuss in class on 1/26
   Becky Dorner and Associates. Moving Toward Person Centered Care, Dec. 2008

2. W 1/21
   How do we age? Can we stop Aging? Nutrition and Aging?
   Guest Speaker: Tips for Success on Your Project; Librarian: Mellanye Lackey, MSI
   (mjlackey@email.unc.edu)

3. W 1/28
   Nutrient Requirements: Macronutrients
   Assignment #1 Due: Recipe

4. W 2/4
   Nutrient Requirements: Micronutrients
