**Funding Grants** for Poverty Related Research
Reflecting the university's longstanding tradition of public service, the Center on Poverty, Work and Opportunity's nonpartisan mission embraces a commitment to public engagement and outreach. The Center offers seed funding grants for innovative, applied research that addresses the persistent challenges facing those living at or below the poverty line. One grant for the full amount up to $20,000 will be awarded. All tenured or tenure track faculty members from any UNC school, department, center or institute are eligible. Apply by Apr. 15 at **http://www.law.unc.edu/centers/poverty/default.aspx**.

**Billights**: On Saturday, April 12th and Sunday, April 13th, you can help save some of these children by joining in a public build of phototherapy devices in Durham, NC. An assembly line style build will be conducted in an attempt to produce as many as 150 of the billights. The completed devices will be distributed in Africa and Central America in July. No skills necessary! There will be three 4-hour shifts on April 12th and one 4-hour shift on April 13th. You can join us by signing up at **http://www.mysignup.com/ewh**.

The Global Forum for Health Research and the Lancet jointly sponsor an essay competition for young professionals (under 30) working in or interested in the broad spectrum of research for health and development. The 2008 competition is open until April 30, **http://www.globalforumhealth.org/Site/005__Getinvolved/009__Essay20Competition/003__Home.php**.

On April 12, from 7:00pm-12:00am at the Durham Armory, 220 Foster Street, in Durham, NC, dance to African music and eat while supporting a cause-helping to save African children and pregnant mothers from malaria. This party with a purpose is hosted by the Bonjour African Malaria Project (BAMP) and will include live entertainment, dinner, dance music, and remarks from local dignitaries including civil rights historian & Duke Professor Emeritus John Hope Franklin, among others.

If you are **planning to go to Africa** for a service, research project, or internship program this summer... Come to an Africa Orientation workshop on Thursday, Apr. 3 from 5:00pm-7:00pm in the Campus Y Faculty Lounge. Experienced student and faculty panelists will share their experiences and answer questions, exploring the political, social, economic and ethical issues surrounding your travel, and the successes and problems you may encounter. RSVP to lwlewis@email.unc.edu or call 962-2084.

**vi. Undergraduate Highlights**
### v. Upcoming global health conferences and call for abstracts

**Register now for HIV Care: Antiretroviral Therapy, Hepatitis B/C, Addiction and Adherence** to be held Monday, May 5 from 8:30am–4:00pm at the Friday Center for Adult Education, Chapel Hill, [http://www.gahec.org/CE/default.htm](http://www.gahec.org/CE/default.htm). Topics will cover HIV and methamphetamine use, HIV and diabetes/cardiovascular disease, current antiretroviral therapies, the epidemic in North Carolina, and mental illness and substance abuse patients. Speakers include physicians Joel Gallant, Christopher Hurt, Michelle Floris-Moore, Rajesh Gandhi, Joel Palefsky, and Peter Leone, and mental health expert Wally Kisthardt, PhD, MSW.

**Unite For Sight** Fifth Annual International Health Conference Building Global Health For Today and Tomorrow, April 12-13, 2008 Yale University, New Haven, Connecticut. Keynote Addresses By: Dr. Jeffrey Sachs, Dr. Sonia Sachs, Dr. Susan Blumenthal, and Dr. Jim Yong Kim & more than 130 speakers.

**2008 Navigating the Global American South Conference** April 13 & 14, 2008 [http://gi.unc.edu/research/ngasc/index.html](http://gi.unc.edu/research/ngasc/index.html)

**The 15th International Symposium on HIV and Emerging Infectious Diseases** in Toulon from May 28-30, 2008 invites you to register for the Symposium. Please visit the Symposium website [www.isheid.com](http://www.isheid.com).

### vi. Global health funding opportunities

The **Bill & Melinda Gates Foundation** will begin accepting grant proposals for Grand Challenges Explorations. Grant proposals will be accepted online at [www.gcgh.org/explorations](http://www.gcgh.org/explorations) from March 31 through May 30, 2008; applicants must register intent to submit a proposal by May 15, 2008. Full descriptions of the topics and application instructions are available at [www.gcgh.org/explorations](http://www.gcgh.org/explorations).

**The RTI-University Collaboration Fund** has been created by Duke University, North Carolina State University, Research Triangle Institute (RTI), and UNC-Chapel Hill to provide small grants for activities that will promote greater dialog among researchers at the four participating institutions. Small grants (less than $20,000 each) will be made available for activities that bring together researchers from at least three of the four institutions (one of which must be RTI). These collaborations should ultimately lead to joint proposal development for external funding. Some possible areas of common research interest include energy, global health, biomarker research, and global climate change. Examples of the type of activities that may be funded are: supporting discussion groups around a specific area of common interest; supporting seminar series; supporting small conferences on specific topics; support for inviting prominent external speakers; other mechanisms that promote communication and joint proposal development.

At UNC-Chapel Hill, questions and suggestions should be directed to Tony Waldrop at twal-drop@email.unc.edu or 919-962-1319. Contacts at the other participating institutions are Jim Siedow (Duke), John Gilligan (NCSU), and Wayne Holden, Bert Maggart, or Satinder Sethi (RTI). Requests for funds can be sent to Satinder Sethi at sathi@rti.org, with a clear explanation of the proposed activity and its likely impact, along with a budget and justification for the amount being requested. Funding decisions will be made by a committee comprised of representatives from each institution. It will meet approximately every six to eight weeks.
Senior Resource Development Officer  
Family Health International  
Research Triangle Park, NC  

Monitoring & Evaluation Manager  
Sudan (Consultant 2 years)  
Responsible for the design, implementation and oversight of monitoring strategies, tools, procedures and surveys to assess success of Global Fund Round 7 Malaria Program for LLIN and ACT. Contribute to the design of the malaria control implementation strategy for Southern Sudan with the PSI country team, Ministry of Health and other stakeholders while focusing on establishing key success indicators and milestones for the various interventions. Work with grant manager and project sub-recipients to develop monitoring strategy, frameworks and tools for activity monitoring and evaluation of program impact. Lead implementation of formative research and supervise the collection, quality control, consolidation and analysis of activity-related data with all sub-recipients. Share findings and evidence with relevant stakeholders and contribute to discussions on how to re-direct interventions as appropriate. Qualifications include: Masters in Public Health with substantial monitoring and evaluation experience or PhD in epidemiology, demography or related research; 3-5 years experience in challenging developing country environments; demonstrated experience with quantitative and qualitative research process; and ability to present information effectively to various large and small audiences. Based in Juba, South Sudan. Reports to Malaria Program Director. To start Summer 2008. Interested applicants should contact Kimberly Watkins at kwatkins@psi.org

DEPARTMENT OF HEALTH BEHAVIOR & HEALTH EDUCATION
SCHOOL OF PUBLIC HEALTH – UNC-CHAPEL HILL
http://www.sph.unc.edu/globalhealth

TENURE-TRACK POSITION in health behavior and health education with focus on global health.
Appointment at Assistant Professor; other ranks may be considered.

DEPARTMENT OVERVIEW: Faculty address prevention, health promotion, disease management across a variety of health problems in diverse populations domestically and internationally, emphasizing three areas: health communication, interpersonal and social processes, and community engagement. The department is committed to research and practice that advances social justice.

RESPONSIBILITIES include funded research, graduate level teaching, and advising. Scholarship should include application of health behavior principles to preventing or reducing global health problems and bring a global perspective to an understanding of health behavior and health promotion topic areas. Research should focus on health priorities in low-resource settings, addressing infectious or chronic diseases or other global health issues.

QUALIFICATIONS: Doctorate in international health, behavioral or social sciences, medicine or public health, or related disciplines. Research experience pertinent to global health and health behavior. Demonstrated ability to establish and collaborate in multidisciplinary, funded research programs. Peer-reviewed publications required; some graduate-level teaching experience preferred.

DATES: Screening of applications will begin on April 1, 2008.

TO APPLY: email PDF versions of curriculum vitae, cover letter and contact information for three references to Jo Anne Earp, ScD, Search Committee Chair, at global_health_search@unc.edu.

SEE DETAILED INSTRUCTIONS FOR APPLICATION at: www.sph.unc.edu/hbhe
