Criterion 2

Instructional Programs

2.8 Other Professional Degrees

CEPH Criterion

If the school offers curricula for professional degrees other than the MPH or equivalent public health degrees, students pursuing them must be grounded in basic public health knowledge.

CEPH Required Documentation

a. Identification of professional degree curricula offered by the school, other than those preparing primarily for public health careers, and a description of the requirements for each.

b. Identification of the manner in which these curricula assure grounding in public health core knowledge. If this means is common across these other professional degree programs, it need be described only once. If it varies by program, sufficient information must be provided to assess compliance by each program.

c. Assessment of the extent to which this criterion is met.
2.8.a. Professional Degree Curricula

**Required Documentation:** Identification of professional degree curricula offered by the school, other than those preparing primarily for public health careers, and a description of the requirements for each.

The school offers no other professional degrees.

2.8.b. Public Health Core Knowledge

**Required Documentation:** Identification of the manner in which these curricula assure grounding in public health core knowledge. If this means is common across these other professional degree programs, it need be described only once. If it varies by program, sufficient information must be provided to assess compliance by each program.

The school offers no other professional degrees.

2.8.c. Assessment of Other Professional Degrees

**Required Documentation:** Assessment of the extent to which this criterion is met.

The school offers no other professional degrees.
