ANTI-RACISM WORKSHOPS

Co-sponsored by: *The Partnership Project, Inc. & Providence Baptist Church*

May 24-25, 2012

Place: Providence Baptist Church ▪ 1106 Tuscaloosa St. ▪ Greensboro, NC
Dr. Howard Allen Chubbs, Pastor ▪ **Church Phone:** 336-273-7552

Race remains an important indicator of well being in US society. When other factors that are cited as the probable reasons for health or social problems (e.g., income, education, parent involvement, access to health insurance) are controlled for in statistical analyses, race remains an important, independent predictor of health, social, education, criminal justice and other outcomes.

The Anti-Racism training, delivered by the **Racial Equity Institute, LLC** is designed to build the capacity of educators, health practitioners, child welfare advocates, judicial representatives, other professionals and others who are interested in understanding and eliminating racial inequities, disparities and disproportionally within our society. This workshop is important for people who want to dismantle racism. It has often been said, **“An organized truth is more powerful than a disorganized lie.”** This workshop provides an analysis that helps participants gain clarity about how racism is well-organized and at work in our institutional practices. For more information, visit our website at: rei.racialequityinstitute.org

From Participants in Previous Workshops:

I attended the Anti-Racism workshop and two days later, I'm still trying to process all that I've learned. I don't believe I'm exaggerating when I say it was one of the best investments in my life, both personally and professionally! To those of you who did not attend, I implore you, please take advantage of the opportunity next month. It will open your eyes, touch your heart, and change your life.

– Rural community organizer

(The trainers) deftly led me from one concept to the next until by the end of the workshop many disparate pieces of information I'd held in my head were suddenly locking into place to make a complete picture that finally made sense. So many aha's in such a short time! And they did so without placing blame, piling on guilt or passing judgment on any individual. Rather, I felt a new door of understanding opening that I am eager to open wider!

– UNC School of Public Health project leader

I learned as much from the participants as I did from the leaders. The leaders are amazingly skilled at leading and encouraging discussion in a way that includes everyone.

– Technical writer at SAS Institute

I learned that racism has to be taken apart brick by brick. Just like a castle that has been built brick by brick, racism must be taken down in the same way that it was built.

– Religious leader, Durham, NC

I would LOVE to see (my organization) sponsor a training and encourage staff to drop everything for just two days and give this their full attention. Change has to start somewhere and it can start with us if we are bold enough to push for it.

– UNC research staff
