Are you a veterinarian interested in public health?
We have the program for you. In a ground-breaking collaboration, the University of North Carolina at Chapel Hill Gillings School of Global Public Health (UNCGSPH) has joined with the North Carolina State University College of Veterinary Medicine (NCSU CVM) to offer the Master of Public Health Program (MPH) with a veterinary epidemiology concentration. This targeted graduate training program equips veterinarians to pursue public health service-oriented careers with local, state, federal or international public health and animal health agencies.

Who Should Apply?
Veterinarians who want to advance their career opportunities in fields that require expertise in epidemiologic problem solving, data analysis and quantitative health assessment.

How to Apply
For more information about this program and how to apply go to: http://www.sph.unc.edu/vet_mph/

Program of Study
Students complete a minimum of 56 credit hours in this 2-year residential program, including the core curriculum for an MPH from the UNC Department of Epidemiology; and a minimum of 6 hours of additional elective specialization courses.

1. Foundational courses in epidemiology and biostatistics [24 credit hours]
2. Courses required for a veterinary epidemiology concentration [10 credit hours]
3. Core courses in areas of knowledge basic to public health (health policy and management, social and behavioral sciences, and environmental sciences) [9 credit hours]
4. Master’s Practicum [4 credit hours]
5. Master’s Paper [3 credit hours]
6. Elective courses from several areas (food safety, geographic information systems, community preparedness and disaster management, global health, field epidemiology, livestock health management and trade policy) [6 credit hours]

Students begin the program in the fall semester.

Application Deadline:
January 3, 2014
