Principal Interests and Activities

- My principal interests are the **social epidemiology of HIV/AIDS** and **complexity and systems thinking in evaluation**.
- As **Director of the MEASURE Evaluation Project** (www.cpc.unc.edu/measure), I oversee MEASURE's global efforts to improve evidence-based decision-making in public health.
- My current research is on **HIV referral networks in Kenya** and **data ethics in low-to-middle-income country routine health information systems**.
- I was the principal author of the American Public Health Association's Code of Ethics. I have a particular interest now in **how public health ethics varies across cultures**.
