FHI 360-UNC Public Health Fellowship Program

FHI 360, in partnership with the Gillings Global Gateway™ in the UNC Gillings School of Global Public Health, is offering a fellowship program for a total of two current or prospective doctoral students and second-year master’s students. FHI 360’s mission is to improve lives worldwide by addressing complex public health issues through research, education and services. In addition to offices in the US, FHI 360 operates in Africa, Asia, and Latin America. Since its founding in 1971, FHI 360 has conducted more than 500 clinical trials and 2,000 research studies in more than 95 countries. For more information, visit www.fhi360.org.

Opportunity Awaits You!
This exciting fellowship program provides you with the opportunity to work with FHI 360’s world-renowned researchers in global health. FHI 360 researchers are particularly interested in creating and testing multi-sectoral, integrated solutions to complex health problems facing the most vulnerable populations. FHI 360 has over 40 country offices in Africa and Asia providing technical assistance and leadership in implementing programs in HIV/AIDS treatment & prevention, TB and TB-HIV care and treatment, malaria prevention, NTD treatment and prevention, and uptake of modern family planning methods. Examples of specific areas of interest also include prevention of gender-based violence, use of mobile phones to deliver health promotion messages, and using GIS-based technology and analysis to impact policy for preventing maternal and neonatal deaths. As a fellow, you will have hands-on learning experiences that will expand your research skills as well as make important contributions to specific research studies. It is estimated that you will work at FHI 360 20 hours weekly from approximately June 2015 to May 2016.

FHI 360 is located on the American Tobacco Campus in Durham, 359 Blackwell, Suite 200, Durham, NC 27701. Fellows will be expected to carry out the majority of their working hours on-site.

Benefits
This one-year fellowship will provide you with in-state tuition support (at the UNC Gillings School of Global Public Health), a stipend, university fees and health insurance. Your assigned project has the potential to provide you with the basis for your dissertation or master’s thesis.

Application Process and Eligibility
Eligible candidates are current or prospective doctoral students and rising second-year master’s students who will be enrolled in UNC’s public health school throughout the time they are Fellows.

All interested individuals will need to complete and submit the application form and required documents to the Gillings Global Gateway™. Required documents are listed in the application form. Applications are available through the Gillings Global Gateway™ website (http://sph.unc.edu/global-health/ggg-internships-and-funding/#fhi).

If you are an out-of-state student, current student or applying for admission to the UNC Gillings School of Global Public Health, you will need to alert your department that you are applying for the FHI 360-UNC Fellowship. Your department will need to provide a tuition remission if you are awarded the Fellowship.

Updated: Nov 2014
A committee representing both faculties from the UNC Gillings School of Global Public Health and FHI 360 will review all applications. FHI 360 will then schedule interviews with selected applicants.

Applications will be due to the Gillings Global Gateway™ January 22, 2015. FHI 360 will notify awardees by March, 2015.
