

Grant Application Scientific and Editorial Review

The NC Translational and Clinical Sciences (NC TraCS) Institute will assist UNC researchers in the design and preparation of their grant applications.

- Ongoing assistance from concept development to application submission
- Review of specific aims and study design
- Grantsmanship advice
- Editorial review for language and clarity
- Review for consistency with funding announcement focus and funding agency priorities
- Multi-investigator and multi-disciplinary grant applications edited for style and thematic consistency of projects and cores

For more information or to meet with a grant expert, contact Linda Johnsen, NC TraCS Central Coordinator, at johnsen@email.unc.edu or [919.966.6022](tel:919.966.6022).

GIVE YOURSELF A COMPETITIVE EDGE.

Receive critical advice about your application before it is reviewed by study section.

CTSA Clinical & Translational[®]
Science Awards

The NC TraCS Institute at UNC-Chapel Hill is one of approximately 60 medical research institutions working together as a national consortium to improve the way biomedical research is conducted across the country. The consortium is funded through the Clinical and Translational Science Awards (CTSA), led by the National Center for Research Resources, part of the National Institutes of Health.
