PUBH/PHNU 785: Interdisciplinary Approaches to Occupational Health
Spring 2015—Distance Learning Course
Classes begin Wednesday, January 7, 2015 and end Friday, April 24, 2015

Faculty:  
Susan Randolph, MSN, RN, COHN-S, FAAOHN
Clinical Assistant Professor, OHN Program
Office Location: 1700 Airport Road, Room 337, Chapel Hill, NC
Office Hours: 9am to 3pm
Phone: 919-966-0979
Email: susan.randolph@unc.edu

Bonnie Rogers, DrPH, COHN-S, LNCC, FAAN, Course Director
Associate Professor; Director, NC OSHERC and OHN Program
Office location: 1700 Airport Road, Room 343, Chapel Hill, NC
Office hours: By appointment
Phone: 919-966-1765
Email: rogersb@email.unc.edu

Credits: 3

Course Prerequisites: None

COURSE DESCRIPTION
This on-line course is designed to provide students with an opportunity to gain knowledge about work and its effect on health. The complexities of workplace exposures and the impact of work-related health hazards and their interactions will be examined. Concepts of risk assessment, risk management, and risk communication will be studied within the context of prevention, health promotion, and health protection strategies to reduce work-related health risks. Regulatory influences, ethical issues, and epidemiologic concepts related to workplace exposures and their implications for worker health and safety will be discussed. Interdisciplinary approaches to occupational health problem identification, investigation, and resolution will be a major emphasis. This is a required course for all NIOSH-funded ERC students.

OBJECTIVES
1. Discuss workforce, workplace, and work-related epidemiologic injury and illness trends, issues, and impacts.
2. Discuss major legislative/regulatory, labor, and related issues that impact occupational health and the importance of program evaluation.
3. Discuss the interdisciplinary nature and role of the occupational health team in the recognition, management, control, and prevention of occupational health hazards and related ethical issues.
4. Discuss risk assessment, risk management, and risk communication approaches including screening, surveillance, and control/abatement measures in dealing with occupational health problems.
5. Describe health protection and health promotion strategies (primary, secondary, and tertiary levels) to effectively reduce work-related health risks and improve quality of life.

REQUIRED TEXTBOOKS/READINGS

**RECOMMENDED READINGS**

**TEACHING METHODS**

Lectures/discussion forums
Online Videos: *Brown Lung Disease* and *Worker to Worker*
Individual and group work
Virtual tour (walkthrough) to learn about work processes and related health hazards

**VALUING DIVERSITY**

Promoting and valuing diversity in the classroom enriches learning and broadens everyone’s perspectives. Inclusion and tolerance can lead to respect for others and their opinions, which is valuable in itself and is critical to maximizing the learning that occurs in this course. Therefore, this class follows principles of inclusion, tolerance, and respect for multiple and diverse points of view.

Please turn in written assignments using Blackboard. **Assignments are due on Mondays at 6pm EST.**

*the only exception is the Brown Lung Discussion Forum which is due on Tuesday, January 20 due to MLK Holiday.*
**Participation (60%)**
Everyone is expected to view the *Brown Lung Disease* and *Worker to Worker* (online video). Students are expected to read all the readings and review pertinent web sites. Students should actively participate in the discussion forums (see Discussion Forum guidelines). You must post your own responses to the questions and respond to postings by classmates, thus contributing to a discussion.

Students also view the virtual tour and answer the questions (see Virtual Tour assignment).

**Interdisciplinary Group Work (40%)**
Groups will be assigned by faculty. Each group will submit at least 2 choices for your paper (industry with a specified hazard/population) to course faculty by **February 16** for approval. The relevant NORA Sector will also need to be identified.

The group will prepare a joint paper, 12-15 double-spaced typed pages, along with appropriate, current references in APA format. The paper should include the following:

1. Describe the nature and scope of the work (major products; operational processes; relevant toxicological data, types of jobs or job classifications);
2. Review and summarize previous studies (work-related health hazards; major causes of illnesses/injuries/lost work-time);
3. Describe control measures used to mitigate health hazards and risks (engineering; work practices; administrative; personal protective equipment), and standards/regulations indicating compliance directives;
4. Recommend abatement, control, and prevention strategies; and
5. Describe the role of the occupational safety and health team in problem identification and problem solving.

Each group member will also submit the group participation form stating that you actively participated in the paper.

Each group will submit PowerPoint slides of the paper.
The paper, powerpoint slides, and participation form are due **April 20, 2015**.

**HONOR CODE**
The University of North Carolina at Chapel Hill has had a student-administered honor system and judicial system for over 100 years. The system is the responsibility of students and is regulated and governed by them, but faculty share the responsibility. If you have questions about your responsibility under the honor code, please bring them to your instructor or consult with the office of the Dean of Students or the Instrument of Student Judicial Governance. This document, adopted by the Chancellor, the Faculty Council, and the Student Congress, contains all policies and procedures pertaining to the student honor system. Your full participation and observance of the honor code is expected.

Information about the Honor Code is listed in the Student Handbook. All written work should be submitted with the following pledge with your signature: “On my honor, I have neither given nor received unauthorized aid on this assignment.”
OTHER

1. By enrolling as a student in this course, you agree to abide by the UNC-Chapel Hill policies related to the Acceptable Use of online resources. Please consult the Acceptable Use Policy (http://help.unc.edu/1672) on topics such as copyright, net-etiquette, and privacy protection.

2. As part of this course, you may be asked to participate in online discussions or other online activities that may include personal information about you or other students in the course. Please be respectful of the rights and protection of other participants under the UNC-Chapel Hill Information Security Policies (http://its.unc.edu/ITS/about_its/its_policies/index.htm) when participating in online classes.

3. When using online resources offered by organizations not affiliated with UNC-Chapel Hill, such as Google or Youtube, please note that the Terms and Conditions of these companies and not the University’s Terms and Conditions apply. These third parties may offer different degrees of privacy protection and access to rights to online content. You should be well aware of this when posting content to sites not managed by UNC-Chapel Hill.

4. When links to sites outside of the unc.edu domain are inserted in class discussions, please be mindful that clicking on sites not affiliated with UNC-Chapel Hill may pose a risk for your computer due to the presence of malware on such sites.
