PUBLIC HEALTH DATA ANALYTICS
DRIVING OUR RESPONSE TO THE OPIOID CRISIS

THURSDAY, MAY 17
11:00 AM - 12:30 PM
GILLINGS SCHOOL OF GLOBAL PUBLIC HEALTH
ROSENAU AUDITORIUM (RO 133)
LUNCH PROVIDED BY VIMALA'S CURRYBLOSSOM CAFÉ

MODERATED BY:
Aaron McKethan, PhD
Chief Data Officer, NC Department of Health and Human Services
Raleigh, NC

SPEAKERS:
Melissa McPheeters, PhD, MPH
Director, Office of Informatics and Analytics, Tennessee Department of Health
Nashville, TN

Jeffery Talbert, PhD
Professor, Director, Institute for Pharmaceutical Outcomes and Policy,
Associate Director, Center for Clinical and Translational Science, University of Kentucky
Lexington, KY

Scott Proescholdbell, MPH
Head, Injury Surveillance Unit, Injury and Violence Prevention Branch, NC Department of Health and Human Services
Raleigh, NC
America’s opioid crisis claims over 100 lives daily. In 2016, the number of overdose deaths involving opioids (including prescription opioids and illegal opioids like heroin and illicitly manufactured fentanyl) was five times higher than in 1999.

State responses to this rapidly-evolving epidemic include investments in data science analytics and public health informatics. Join us for a timely presentation of the data science strategies that states are developing in response to the opioid crisis.
