BIOSTATISTICS SEMINAR

Lukas Biewald, CEO and co-founder of Weights & Biases, and founder of Figure Eight/ CrowdFlower

Visualization and tracking of hyperparameters during training of deep learning models

Weights and Biases is an experiment tracking platform for deep learning. With a few lines of code, explore how hyperparameters affect model performance in real time, record and visualize every detail of your research, compare across 1000s of runs, reproduce and share results and collaborate more easily. Weights & Biases is free for academic teams.

Sign up at https://app.wandb.ai/

Lukas Biewald is currently CEO & co-founder of Weights & Biases. In 2009, Lukas founded Figure Eight (acquired by Appen), formally CrowdFlower. Lukas has dedicated his career to optimize ML workflows and teach ML practitioners, making machine learning more accessible to all.

Thursday September 19, 2019   **3:30 pm - 4:30 pm**
Blue Cross and Blue Shield of North Carolina Foundation Auditorium
