EDUCATION

**GILLINGS SCHOOL OF GLOBAL PUBLIC HEALTH
UNIVERSITY OF NORTH CAROLINA-CHAPEL HILL, NC**
Health Policy and Management (HPM)
Doctorate of Public Health (DrPH)
Graduated in May 2016

OXFORD UNIVERSITY, Oxford, England
Master of Philosophy in Development Studies/International Health (MPhil)
Graduated in July 2005 with Distinction

UNIVERSITY OF NORTH CAROLINA-CHAPEL HILL, NC
B.A. in International Studies, Concentration in Global Health
Minor in Business Administration (Kenan-Flagler Business School)
GPA: 3.974/4.000. Graduated in May 2003 with Highest Honors

PROFESSIONAL EXPERIENCE

2020 – Present **VISITING ASSISTANT PROFESSOR, Center for AIDS Prevention Studies (CAPS)
Prevention Science, Department of Medicine
University of California, San Francisco (UCSF)**

2017 – Present **ASSISTANT PROFESSOR, Public Health Leadership Program (PHLP),
SOCIO-BEHAVIORAL RESEARCHER, HIV Cure-Related Research
UNC-Chapel Hill Gillings School of Global Public Health**

- Lead instructor for global health courses in the Public Health Leadership Program (PHLP) and Global Health Concentration, including:
 - Introduction to Global Public Health (SPHG 700) (online)
 - Global Health Ethics – for Global Health Concentration (PUBH 710) (residential)
 - Critical Issues in Global Health (PUBH 711) (residential and online)
 - Global Health Ethics (PUBH 712) (online)
 - AIDS Course (PUBH 725) (online)
- Lead socio-behavioral scientist on HIV cure-related clinical trial protocols and collaborations

2016 **ADJUNCT ASSISTANT PROFESSOR, Public Health Leadership Program (PHLP),
UNC-Chapel Hill Gillings School of Global Public Health**

- Lead instructor for global health courses in the Public Health Leadership Program (PHLP) and Global Health Concentration, including:
 - Introduction to Global Public Health (SPHG 700)
 - Global Health Ethics (PUBH 712)

2016 – 2017 **CONSULTANT/CO-INVESTIGATOR, Social and Ethical Aspects of HIV Cure Research (searchHIV),
UNC-Chapel Hill, Chapel Hill, NC**

- Leading inter-disciplinary research and publications related to the social sciences of HIV cure research in the United States.

2016 CLINICAL PROJECT MANAGER, ClinicalRM, Chapel Hill, NC

- Managed all aspect of complex Ebola research program funded by the Bill and Melinda Gates Foundation in West Africa, with a special focus on natural history study of Ebola Virus Disease (EVD) in Monrovia, Liberia.
- Managed the UNC – ClinicalRM – Duke – USAMRIID Ebola Research Consortium.

2013 – 2015 RESEARCH PROGRAM MANAGER, Institute of Global Health and Infectious Diseases (IGHID), Collaboratory of AIDS Researchers for Eradication (CARE), The University of North Carolina at Chapel Hill, NC.

- Managed a large NIH-funded Collaboratory compromised of 20+ scientists from 10+ universities in the United States and Europe (\$USD 6.4 million/year) whose main objective was to pursue a concerted effort to eradicate HIV infection by bringing a team of experts together in discovery and development to create a cure for AIDS. The Administrative Core was a key component for the success of the Collaboratory by overseeing the various activities of the research program and providing infrastructure and coordination between the various scientific groups and the scientific cores.
- Designed and managed an international HIV cure research training curriculum (CUREiculum) with partner organizations such as DARE, defeatHIV, Project Inform, and AVAC.
- Built networks between the HIV+ community and the scientists working on HIV cure-related research, convening meetings of community advisory boards, disseminating information, and providing community feedback to the scientists on their research.

2012 – 2013 CLINICAL RESEARCH ASSOCIATE III, U.S. Military HIV Research Program (MHRP)/Henry M. Jackson Foundation for the Advancement of Military Medicine, Inc. (HJF), Bethesda, MD.

- Managed site and cohort development program in preparation for future prime-boost HIV vaccine trials in Mozambique, transitioned project to U.S. Department of Defense and U.S. National Institutes of Health Division of AIDS funding streams, developed and designed HIV incidence research in Mozambique, prepared manuscripts for Mozambique scientific journal articles, assisted in the preparation of the U.S. Military HIV Research Program Clinical Trials Unit application for the U.S. NIH DAIDS Clinical Research Sites re-competition, developed standard operating procedures for MHRP Clinical Operations Office.

2008 – 2012 SENIOR RESEARCH ASSOCIATE, FHI 360 (formerly Family Health International), Research Triangle Park, NC.

- Developed, designed and oversaw major components of studies in infectious diseases, oversaw research implementation activities in the field, prepared scientific reports, collaborated with team members and field investigators throughout all phases of research, oversaw submissions to ethical and institutional review boards, developed and monitored financial aspects of studies, provided technical oversight for preparation of proposals, protocols, research instruments and study procedures manuals, developed and reviewed protocols and study-related materials for assigned clinical research studies, oversaw clinical monitoring of studies, ensured that research was conducted in accordance with applicable federal regulations and FHI 360 policies and standard operating procedures, participated in clinical monitoring of studies, trained junior research staff in clinical research monitoring and management, assisted in development of research proposals and business development.

2007 – 2008**RESEARCH AND PROGRAM ANALYST, amfAR – The Foundation for AIDS Research, Washington, DC.**

- Researched and analyzed biomedical and behavioral research results, and compiled research developments pertaining to HIV/AIDS prevention, treatment, care, and policy.
- Co-authored issue briefs, fact sheets and policy briefs on various topics related to HIV/AIDS.
- Developed a strategic plan for the public policy department.
- Assisted in the planning, development, and execution of amfAR's programmatic activities.
- Represented amfAR at meetings and conferences and promoted amfAR's positions and policy priorities to colleague organizations and government agencies, including USAID, National Institutes of Health (NIH), and Office of the Global AIDS Coordinator.
- Provided technical assistance to amfAR's Therapeutics Research, Education and AIDS Training (TREAT) Asia program.
- Created and maintained libraries of articles on several topics related to HIV/AIDS for the organization.
- Conducted training workshops on HIV/AIDS-related issues; supervised 5 junior staff.

2006 – 2007**PROGRAM COORDINATOR, Health Strategies International, LLC, Durham, NC.**

- Conducted consultancy work on human resources for malaria scale-up activities for the Bill and Melinda Gates Foundation/PATH Malaria Control and Evaluation Partnership (MACEPA) project in Zambia.
- Provided technical assistance on USAID-funded Jamaica Health Lifestyle Project and USAID-funded Romanian Health Care Reform Project.
- Maintained project budgets and reviewed work plans, project timelines and scopes of work.
- Acted as Manager of Business Development. Assisted in the preparation of project proposals, including a successful sub-contract on USAID/PATH TASC 2 Global Tuberculosis Task Order.
- Expanded business relationships with partner organizations and donors. Created a database of business opportunities and enrolled the company with funders' email list servers.
- Supervised 4 in-country staff.

2005 – 2006**SENIOR RESEARCH ASSISTANT, Family Health International, Research Triangle Park, NC.**

- Clinical monitor for African sites conducting 6% Cellulose Sulfate gel phase III trial. Verified source data, wrote and resolved queries using electronic databases, reviewed the quality and integrity of data collected from the sites.
- Maintained regulatory documents for multiple study sites and ensured that the study was in accordance with GCP and other international clinical guidelines.
- Served as the primary contact and coordinated correspondence between the study sites, the sponsors and the in-house staff.
- Reviewed documents for successful implementation, coordination and management of study projects.

OTHER MENTORING

Teaching – Adjunct Faculty

2019

1. Christie Pettitt-Schieber, Adjunct Faculty, Public Health Leadership Program, Chapel Hill, NC.

Undergraduate Students

2019 – Present

1. J. Eduardo Neri, Morehead-Cain Scholar (2017 – 2021), University of North Carolina, Chapel Hill, NC.

CONTRACTS AND GRANTS

Ongoing Research Support

05/05/2020 – 03/31/2021 (20% effort)

Ethics Administrative Supplement to R21-MH118120: Advancing Empirical Research Ethics for HIV Cure Research

Role: Principal Investigator

05/01/2020 – 04/31/2022 (10% effort)

Perceptions of Risks and Benefits of Participating in HIV Cure-Related Research among Diverse Youth and Young Adults Living with HIV in the United States (R21 MH 122280) (with Dr. Parya Saberi, UCSF)

Role: Co-Investigator

11/01/2019 – present (0% effort)

A Phase I Study to Evaluate the Safety and Antiviral Activity of Two Human Monoclonal Antibodies (VRC07-523LS and PGT121LS) Administered to HIV Infected Participants Who Initiated ART During Acute or Chronic HIV-1 Infection, AIDS Clinical Trials Group (ACTG) Study 5389

Role: *Socio-Behavioral Scientist*

10/01/2019 – present (5% effort)

City of Hope (COH)/California Institute for Regenerative Medicine (CIRM) – Participant-Centered Outcomes for CMV-HIV Chimeric Antigen Receptor (CAR) T Cell Protocol (development phase)

Role: *Socio-Behavioral Scientist*

07/01/2019 – present (5% effort)

A Pilot Phase I Randomized Study to Evaluate Innate Immune Activation Predictors of Sustained Viral Control in HIV-Infected Adults Undergoing a Brief Analytical Treatment Interruption after the Administration of Pegylated Interferon Alpha 2b in Combination with Two Intravenous Broadly HIV-1 Neutralizing Antibodies 3BNC117 and 10-1074 (BEAT-HIV Collaboratory)

Role: *Socio-Behavioral Scientist*

05/01/2019 – 03/31/2021 (30% effort)

Pilot Integration of Participant-Centered Outcomes in HIV Cure Research in the United States: Implications for Ethical Conduct (R21 MH118120)

Role: *Principal Investigator/Project Director*

02/01/2019 – TBD (0% effort)

The INSPIRE Project: Improve, Nurture and Strengthen Education, Collaboration, and Communication between People Living with HIV and Researchers. In collaboration with the Australian Research Center in Sex, Health and Society, La Trobe University, Melbourne, Australia

Role: *Co-Investigator/Consultant/Socio-Behavioral Scientist*

10/01/2018 – TBD (10% effort)

Combinatorial Therapy with [CONFIDENTIAL]: A Pilot Study Aimed at Inducing an HIV Remission, UCSF/amfAR Institute for HIV Cure Research.

Role: *Socio-Behavioral Scientist*

08/01/2018 – TBD (0% effort)

A Phase 1, Open-Label, Study of the Safety, Pharmacokinetics and Ability to Durably Prevent Viral Relapse During a Monitored Analytical Treatment Interruption of a Combination of the Broadly Neutralizing Antibodies 3BNC117-LS and 10-1074-LS, AIDS Clinical Trials Group (ACTG) Study 5364

Role: *Socio-Behavioral Scientist*

08/01/2017 – 07/31/2022 (5% effort)

Revealing Reservoirs during Rebound (R3) P01AI131385

Role: *Socio-Behavioral Scientist*

08/01/2017 – TBD (0% effort)

Identification of Biomarkers to Predict Time to Plasma HIV RNA Rebound and Post-Treatment Viral Control during an Intensively Monitored Antiretroviral Pause (IMAP), AIDS Clinical Trials Group (ACTG) Study 5345/5347s

Role: *Socio-Behavioral Scientist*

Completed Research Support

08/01/2017 – 03/31/2020 (0% effort)

Selective Estrogen Receptor Modulators to Enhance the Efficacy of Viral Reactivation with Histone Deacetylase Inhibitors, AIDS Clinical Trials Group (ACTG) Study 5366

Role: *Socio-Behavioral Scientist*

07/01/2017 – 04/30/2019 (5% effort)

Clinical Sequelae and Urogenital Viral Dynamics in Survivors of Ebola Virus Disease in Liberia NIH R01 AI123535

Role: *Research Support*

03/01/2017 – 07/31/2017 (\$USD 10,000 direct)

Gilead Sciences/Project Inform

Social Sciences of HIV Cure Research in the United States

Role: *Co-Investigator*

02/02/2017 – 09/14/2017 (\$USD 13,000 direct)

Social and Ethical Implications of HIV Cure Research (searchHIV) NIH R01A108366

Role: *Co-Investigator/Consultant*

01/01/2016 – 06/30/2016 (\$USD 5,000 direct)

Martin Delaney Collaboratory National Community Advisory Board/University of California San Francisco (UCSF)

Focus Group Implementation for Social Sciences in HIV Cure Research in 4 U.S. Cities (Seattle, CA; Los Angeles, CA; San Diego, CA; Durham, NC)

Role: *Principal Investigator*

01/01/2016 – 06/30/2016 (\$USD 14,479 direct)

Previous Work Experience and Research Protocol Involvement

Program Management of the Collaboratory of AIDS Researchers for Eradication (CARE) (2013 – 2015)

Research Program Manager

Responsibilities included provision of strategic and administrative direction to a large U.S. National Institutes of Health (NIH) Division of AIDS (DAIDS)-funded Collaboratory comprised of 20+ scientific projects from 10+ universities in the United States and Europe, together with industry partner Merck Inc. Main tasks pertained to overall grant management, fiscal management and oversight for cooperative agreement, management of internal communications including webinar series, coordination of scientific groups, production of operational reports and updates, coordination of external communications, including CARE Scientific Advisory Board, NIH, CARE Community Advisor Board (CAB) and other Martin Delaney Collaboratories, planning of face-to-face meetings; knowledge management including CARE-related publications and website, regular assessment of CARE investigators' research progress, outcomes and collaboration; management of shared resources and reagents and coordination of legal and intellectual property rights agreement. The major focus of the CARE is on the development and testing of therapeutic interventions to eradicate latent HIV infection (www.delaneycare.org). Funded by the NIH DAIDS, Bethesda, United States.

Cohort and Site Development to Assess the Incidence of HIV Infection, Retention Rate, and Willingness of Adults to Participate in Future HIV Vaccine Trials in Mozambique (2012 – 2013)

Lead Clinical Research Associate

Responsibilities included site development and capacity building, project management and elaboration of implementation plans, development of critical project documents, writing of manuscripts and scientific journal articles, development of general and study-specific training curriculums for site and cohort development project, communications with external partners. Funded by U.S. Department of Defense (DoD) and NIH DAIDS, Bethesda, United States.
