

Christopher L. Ringwalt, Dr.P.H.

8 Cobb Terrace ♦ Chapel Hill, NC 27514-5741

MOBILE: (919) 259-0643

UNC E-MAIL: CRINGWAL@EMAIL.UNC.EDU

PIRE E-MAIL: RINGWALT@PIRE.ORG

PROFILE

Dr. Ringwalt is a Senior Evaluator at the University of North Carolina's CDC-funded Injury Prevention Research Center (IPRC), and is also a Senior Scientist at the Chapel Hill Center of the Pacific Institute for Research and Evaluation (PIRE). Dr. Ringwalt has 25 years of experience in the design, development, analysis, and reporting of epidemiological, etiological, and evaluation studies relating to public health issues. His research has focused primarily on the prevention of adolescent and adult risk behaviors, particularly alcohol, tobacco, and other drug (ATOD) use.

Among his various studies, he has directed several evaluations of the Drug Abuse Resistance Education (DARE) Program for the National Institute on Drug Abuse (NIDA), the National Institute of Justice (NIJ), and D.A.R.E America. He has also investigated the prevalence of ATOD use and other risk behaviors among runaway and homeless youth, with support both from the Department of Health and Human Services (DHHS) and from NIDA. He has conducted, for the Center for Substance Abuse Prevention (CSAP), a study of North Carolina's ATOD prevention needs and has served as the evaluator for the South Carolina State Incentive Grant. Dr. Ringwalt studied the development of ethnic identity in African-American male adolescents (for CDC), adolescent dating violence (for the Assistant Secretary for Planning and Evaluation), and drug prevention in managed care settings (for CSAP). He has served as the Senior Evaluator for the Southeast Center for the Application of Prevention Technology (SECAPT), where he was responsible for translational research. He has completed two NIDA-funded grants, one pertaining to school-based drug prevention programs, and the other concerning strategies designed to enhance teacher fidelity to evidence-based drug prevention curricula. Additionally, he has completed large randomized controlled trials of Projects SUCCESS and ALERT with support from the Office of Juvenile Justice and Delinquency Prevention (OJJDP) and has evaluated the Avenues for Success Project for the Chicago Public Schools. He has also conducted a longitudinal evaluation of residents in rural communities in Swaziland to examine the effects on health and health behaviors of a project designed to bring clean water to these communities. He is currently directing two studies funded by CDC, and serves as Senior Advisor of a third, that are investigating various topics related to the prevention of opioid overdose attributable to controlled substances. He has also served as the PI of a NIJ-sponsored study to develop and validate an algorithm to identify providers manifesting unusual prescribing practices, and of a RWJ-sponsored study to conduct a national policy analysis of state prescription drug monitoring programs. He is now supporting a prescription drug overdose grant that CDC awarded the State or North Carolina, and a cross-site evaluation of this initiative awarded to RTI International. In addition, he is preparing, for the U.S. State Department, curricula pertaining to both school-based drug prevention and monitoring and evaluation that will be used internationally to train and certify drug prevention specialists.

Dr. Ringwalt has served as Chair of the Alcohol, Tobacco, and Other Drug Section of the American Public Health Association (APHA), and as Secretary to the Board of the Society of Prevention Research. He was a permanent member of the NIDA-F Study Section until its demise in 2009, and continues to serve as an occasional *ad hoc* reviewer for various NIH Study Sections. Dr. Ringwalt has published over 100 journal articles, book chapters and other publications, and is now serving as the editor of the *Journal of Primary Prevention*.

EDUCATION

Dr.P.H. School of Public Health, University of North Carolina, Chapel Hill, NC, 1985.

M.S.W. School of Social Work, University of Tennessee, Nashville, TN, 1975.

B.A. English, Haverford College, Haverford, PA, 1970. Graduated with Honors.

SELECTED PROJECT EXPERIENCE

Developer, Universal Prevention Curricula (2013-17). With support from the U.S. State Department through the Colombo Plan, develop curricula to train substance use prevention coordinators and specialists/practitioners in the selection and implementation of evidence-based substance abuse prevention curricula for students, and in conducting monitoring and evaluation activities.

Project Director, Prescription Drug Overdose-Prevention for States (2015-2020). With support from CDC, through a subcontract to RTI International, conduct a cross-site assessment of CDC's grants to the states to support novel prescription drug overdose prevention activities.

Principal Investigator, Identifying High Risk Prescribers using PDMP Data: a Tool for Law Enforcement (2013-2014). With support from NIJ, develop an algorithm based on data available from North Carolina's Prescription Monitoring Program to identify providers demonstrating unusual prescribing patterns related to controlled substances.

Principal Investigator, Evaluation of Project Lazarus and the Chronic Pain Initiative in North Carolina (2012-2016). With support from CDC, the Kate B. Reynolds Foundation, and the Office of Rural Health, evaluate the effects of this statewide, community-based initiative to prevent morbidity and mortality related to the misuse, diversion, and abuse of controlled substances.

Senior Advisor, Development of an Empirically Validated Algorithm for North Carolina's Medicaid Lock-In Program (2012-2014). With support from CDC, develop and test a formula based on risk factors for opioid overdose available in the Medicaid database that identifies patients at high risk for overdose.

Principal Investigator, Outcome Evaluation of a Consistent Care Protocol in Emergency Departments (2011-2013). With support from CDC, conduct a randomized controlled trial of the effects of a protocol designed to identify patients with complaints of subjective chronic pain who frequently present to emergency departments (EDs) in an attempt to secure opioid prescriptions, and suggest that their physicians not prescribe opioid analgesics to them and instead refer them to a community-based provider for continued pain management.

Project Director, Outcome Evaluation of North Carolina's Controlled Substances Reporting System (2011-2012). This study assesses physicians' utilization of the State's Prescription Drug Monitoring System (PDMP) and its effects on opioid prescription rates.

Principal Investigator, Assessing the Effectiveness of Prescription Drug Monitoring Programs (2011-2013). With support from the Robert Wood Johnson Program, evaluate the impact of the states' electronic state prescription drug monitoring programs (PDMPs) on overdose mortality.

Project Director, Special Reports for the Data Analysis Coordination and Consolidation Center (2010-2011). Directed for CSAP the development of special reports concerning obesity and substance abuse, bullying and substance abuse, the relationship between state-level alcohol policy and alcohol consumption by adolescents, and the development of a template to measure the costs of implementing prevention programs.

External Evaluator, North Carolina Clinical and Translational Sciences Institute (NC TraCS)

(2010-2011).

Served as the Institute's external evaluator for this NIH funded Clinical and Translational Sciences Award (CTSA). Developed logic model for the entire CTSA that integrated the activities of its discrete cores. Recommended various outcome evaluations to test TraCS' effects on the outcomes specified in the logic model.

Senior Evaluator, Evaluation of Water Projects in Swaziland (2009-2012).

This study is testing the effects on family health (particularly the prevalence of diarrhea in children) of providing clean water in ten rural communities in Swaziland. Supervised a domicile survey that covered a variety of topics related to securing water, water use, and related health behaviors.

Senior Evaluator, Southeast Center for the Application of Prevention Technology (SECAPT) (2007-09)

Senior Evaluator with additional responsibilities for training and technical assistance, with particular emphasis on work with American Indian tribes. Developed paper concerning the proper conduct of evaluation in Indian country, and conducted site visits to several tribes.

Senior Evaluator, Evaluation of the Effects of a Student Drug Testing Program (2006-2010).

Funded by the U.S. Department of Education to Student Drug Testing of America, this study assessed the effects on students of a policy of random, suspicionless drug testing in several cohorts of students in high schools in South Florida

Principal Investigator, Evaluation of the Elementary D.A.R.E. Curriculum (2006-2008).

This study, funded by D.A.R.E. America, tested the effects on middle students in 15 schools in a large metropolitan area of the organization's revised elementary drug education and prevention curriculum.

Senior Evaluator, Evaluations of Avenues for Success (2004-2009).

The purpose of these studies, funded by the U.S. Department of Education through two successive grants to Chicago Public Schools, was to determine the effects of Avenues for Success, which targets substance use prevention among high school students.

Principal Investigator, Evaluations of Projects ALERT and SUCCESS (2003-2008).

This OJJDP-supported study relied on randomized controlled trials to conduct an independent evaluation of two school-based prevention curricula, Project ALERT, a universal curriculum targeting middle school students, and Project SUCCESS, a selective curriculum targeting high school students.

Principal Investigator, The Diffusion of School-Based Substance Use Prevention Curricula Nationwide (2003-2008).

This NIDA-funded study examined factors related to the utilization and sustainability of evidence-based prevention curricula, as well as other pertinent issues, including drug testing.

Principal Investigator, Cultural Tailoring of Prevention Curricula (2003-2004).

The developers of the Protecting You/Protecting Me prevention curriculum invited elders from three Nebraska tribes to make adaptations to the curriculum to enhance its delivery to Native American youth. This CSAP-funded study examined these adaptations

Principal Investigator, Enhancing Fidelity with Teacher Training and Follow-up Support (2002-2007).

This NIDA-funded grant developed and implemented a randomized clinical trial to assess the effects of a series of strategies designed to enhance teacher fidelity to Project All*Stars, an evidence-based curriculum developed by William Hansen of Tanglewood Research. The strategies include on-site coaching and proactive follow-up technical assistance, as well as recognition of technical mastery.

Principal Investigator, Assessment of Services Offered by the Southeast Center for the Application of Prevention Technology (SECAPT) (2001-2003).

This study determined the effects of SECAPT services on the state infrastructure for and delivery of prevention services of states and territories within the southeastern United States.

Reviewer and Coordinator of Applications from Worksite-based Programs, National Registry of

Effective Prevention Programs (NREPP) (2001-2004).

This project, sponsored by the National Center for the Advancement of Prevention, assessed the readiness for promulgation as effective of workplace-based substance abuse prevention programs, and to stimulate the submission of suitable applications.

Senior Evaluator, South Carolina State Incentive Grant (SIG) (2000-2004).

The purpose of this study was to coordinate strategic plans and funding streams targeting substance abuse prevention in South Carolina, and to support the implementation of evidence-based practices in 20 communities around the State.

Principal Investigator, The Implementation of Project ALERT (2001-2002).

Through detailed case studies of a dozen schools, this study assessed the quality with which Project ALERT was being implemented, and examining factors associated with effective implementation.

Task Leader, Truth Tour Evaluation (2000).

The purpose of this study was to conduct a qualitative evaluation of the truth tour, sponsored by the American Legacy Foundation. The truth tour utilized specially trained adolescents to deliver an anti-tobacco message to teens. This evaluation was based on the field notes of ethnographers placed with the adolescents on three national tours.

Associate Project Director, Safe Schools/Healthy Students Cross-Site Evaluation (1999-2000).

This study was a cross-site evaluation of a large (54 grantees) multisite, multistrategy prevention program targeting substance use, violence, and mental health in our nation's schools and communities.

Principal Investigator, School-based Substance Use Prevention Program Study (1998 to 2002).

With grant support from NIDA, led a study of drug prevention programs in the nation's middle schools. The study determined the distribution of various types of drug prevention curricula and assessed the mechanisms through which promising programs are successfully disseminated.

Principal Investigator, Ethnic Identity and Alcohol Use (1997 to 2000).

Led an NIAAA-funded project to collaborate with two faculty members at North Carolina Central University (a historically black institution) to enhance their capacity to conduct alcohol-related research.

Principal Investigator, Drug Prevention in Public Managed Care Settings (1998 to 2000).

Led a CSAP-funded project designed to infuse effective drug prevention strategies into public managed care settings. The project includes the development of minimum standards for drug prevention and mental health promotion activities in such settings.

Senior Scientist, Drug Prevention in Workplace Managed Care Settings (1997 to 2000).

Provided ATOD prevention expertise to a CSAP-supported cross-site study of the nature and effectiveness of drug prevention strategies infused into workplace managed care settings.

Principal Investigator, Worksite Drug Prevention in Vermont (1998 to 2000).

Led a CSAP-supported study of drug prevention activities in a representative sample of worksites in Vermont, together with the managed care organizations with which these employers contract to serve their employees.

Senior Scientist, Community Resource Assessments (1997 to 2000).

Served as senior scientist and advisor on community resource assessments conducted in North Carolina, Louisiana, Vermont, and Missouri.

Principal Investigator, Georgia Community Partnership Project (1998 to 1999).

With support from the State of Georgia and the Medical College of Georgia, led a project to enhance the capacity of 10 community-based organizations (CBOs) to develop integrated services to their communities.

Principal Investigator, Adolescent Dating Violence (1997 to 1999).

Led a study for the Assistant Secretary for Planning and Evaluation (ASPE) on the causes and epidemiology of intimate-partner violence among adolescents.

Principal Investigator, State Demand and Needs Assessment Studies: Alcohol and Other Drugs (1995 to 1999).

Served as Principal Investigator on subcontract from the State of North Carolina's Division of Mental Health, Developmental Disabilities, and Substance Abuse for this research effort sponsored by CSAP. The study determined the ATOD prevention needs of the state's population as a whole, as well as those in a number of high risk populations within the state. Social indicator and other archival data were used to estimate the nature and extent of prevention needs by county, and a survey of the drug prevention coordinators within the state's area mental health programs was used to examine the nature and extent of drug prevention activities.

Principal Investigator, The Durham Community Coalition to Develop a Collaborative, Long-Range Comprehensive Drug/Alcohol Prevention Program (1995 to 1998).

Served as Principal Investigator on a subcontract from the City of Durham for this ongoing project sponsored by CSAP. The purpose of the subcontract was to conduct a process and outcome evaluation of a coalition of community-based partnerships dedicated (at least in part) to preventing drug use and abuse.

Principal Investigator, Ethnic Identity and Violence Among African-American Male Adolescents (1995 to 1999).

Served as Principal Investigator for a research effort sponsored by CDC that investigated the relationship among African-American parents' sense of ethnic identity, that of their sons, and their sons' violent behavior.

Principal Investigator, Injury Community Demonstration Projects for the Evaluation of Youth Violence Prevention Programs (1992 to 1998).

The purpose of this project was to develop, implement, and evaluate a violence prevention program targeting African American male adolescents. The program, "Supporting Adolescents with Guidance and Employment (SAGE)," had three components: a combined Rites of Passage and mentoring program, a summer jobs program, and an entrepreneurial experience.

Co-Principal Investigator, Preventing Alcohol Abuse in African-American Male Youth (1995 to 1999).

Served as Co-Principal Investigator on a study sponsored by the National Institute on Alcohol Abuse and Alcoholism that added an alcohol abuse prevention component to the community-based intervention described immediately above. The purpose of the study was to enhance and extend the longitudinal evaluation effort currently in place, focusing specific attention on alcohol use behaviors and related consequences. Led data collection, data analysis, and reporting activities.

Principal Investigator and Project Director, Youth with Runaway, Throwaway, and Homeless Experiences: Prevalence, Drug Use, and Other At-Risk Behaviors (1990 to 1993).

Served as Principal Investigator and Project Director for this study sponsored by the Administration on Children, Youth, and Families of the Department of Health and Human Services. Led the design of the study, the primary objectives of which were to determine the extent and cause of alcohol and drug abuse among runaway and homeless youth and to elucidate factors contributing to substance abuse in this population.

Principal Investigator, Drug Use Among Homeless Youth (1995 to 1998).

Served as Principal Investigator of this study sponsored by NIDA, which supports further analysis of data yielded by the study described above.

Principal Investigator and Project Director, Past and Future Direction of the DARE Program: An Evaluation Review (1991 to 1994).

Led this NIJ-sponsored assessment and evaluation of Project DARE. Our findings compared the results of DARE evaluations unfavorably with the effects of other drug prevention curricula targeting middle school students. The results were published an article in the *American Journal of Public Health*.

Principal Investigator and Project Director, A Process and Outcome Evaluation of Project DARE (1991 to 1993).

Served as Principal Investigator and Project Director for this study sponsored by NIDA. The primary goal of this research effort was to extend knowledge of the effects of Project DARE, a widely used school-based prevention program, building upon a longitudinal experimental evaluation of Project DARE.

Project Director, Study of Implementation and Effectiveness of CSAP High Risk Youth Demonstration Projects (1991 to 1995).

Served as RTI Project Director in this study sponsored by CSAP. In this study, RTI assisted CSR, Inc. in providing services to CSAP, developing strategies designed to assess the effects of three cohorts of demonstration programs serving high-risk youth, and delivering technical assistance to program staff to improve the quality of their evaluations.

PROFESSIONAL EXPERIENCE

- 2010 to present Injury Prevention Research Center
University of North Carolina at Chapel Hill
Senior Research Scientist for Evaluation
Served as external evaluator developing plans to assess evaluate programs designed to reduce risk of injuries, in particular accidental opiate-related poisonings
- 2010 to 2011 North Carolina Translational and Clinical Sciences Institute (NC TraCS)
External Evaluator
Developed logic model as a framework for a series of outcome evaluations to document effects of Clinical and Translational Science Award (CTSA) at the University of North Carolina Medical School
- 2006 to present Pacific Institute for Research and Evaluation, Chapel Hill, NC
Senior Research Scientist
Secured support for, and served as PI or project director of, a variety of studies funded by NIDA, OJJDP, and CSAP. Led analysis and reporting. Led and served as co-author for numerous published manuscripts
Center Director (2000 to 2005—five-year term)
Served as director responsible for the administration of PIRE’s Chapel Hill Center; supervised staff of 20 and ensured that budgetary targets were not exceeded.
- 1990 to 2000 Research Triangle Institute, Research Triangle Park, NC.
Director, Substance Abuse and Other Risk Behavior Epidemiology and Prevention Program (1995 to 2000).
Managed staff of 25 researchers and specialists in the field of adolescent and adult ATOD use, violence, and other risk behaviors. Responsible for overall management and quality assurance. Directed study design, and analysis. Served as contact between RTI and sponsor agencies in contract and grant research endeavors. Led reporting of project findings in conferences, government publications, and journals.
Research Health Analyst, Adolescent Risk Behavior Prevention Program (1990 to 1995).
Led research in youth risk behavior, including investigations of the epidemiology and prevention of adolescent substance abuse, violence, and unsafe sexual behaviors.
- 1996 to date Department of Health Behavior and Health Education, School of Public Health,

University of North Carolina at Chapel Hill
Adjunct Professor.

- 1987 to 1990 Alcohol and Drug Defense Division, North Carolina Department of Public Instruction. Raleigh, NC
Coordinator, North Carolina Drug-Free Schools Program.
Conducted survey research and program evaluation. Managed Federal and State grants relating to alcohol and drug prevention and early intervention programs in North Carolina's public schools.
- 1985 to 1987 Department of Maternal and Child Health, University of North Carolina, Chapel Hill, NC.
Research Associate.
Managed a study of factors in the etiology of child abuse and neglect, with a particular emphasis on stress and social support.
- 1984 to 1985 Institute of Government, University of North Carolina at Chapel Hill, NC.
Research Coordinator.
Assessed sentencing patterns for juvenile status offenders in North Carolina.
- 1978 to 1980 Chatham County Department of Social Services, Pittsboro, NC.
Social Caseworker.
Provided child welfare services, including protective services, foster care, and adoptions.
- 1975 to 1977 Social Work Program, Washburn University, Topeka, KS.
Instructor.
Taught social work methods, social welfare administration, and social welfare policy.

PROFESSIONAL ACTIVITIES

Review

Editor, Journal of Primary Prevention (2013-present)

Reviewer for:

Journal of Drug Education

Journal of Primary Prevention

Health Behavior

Honors, Boards, and Technical Working Groups

Steering committee member, Program Evaluation for Prevention, SAMHSA (2014- present)

Consultant, Asian Centre for Certification and Education of Addiction Professionals (ACCE) and
U.S. Department of State (2013)

Consultant, National Registry of Effective Prevention Programs (2003-present)

Technical Working Group, advised on the development of ONDCP's "Above the Influence" campaign,
2010-2011

Chair, American Council for St. Luke's Hospital, Tokyo (2009)

Technical Working Group, Student Drug Testing Institute, U.S. Department of Education (2009)
Technical Working Group, Safe and Drug-Free Schools Study, U.S. Department of Education (2008-2009)
CSAP National Outcome Measures (NOMs) Panel (2008)
Chair, External Advisory Board, DC-Baltimore Center for the Improvement of Child Health Disparities (2003-05)
Mentor and Advisory Board member, for project titled “Improving Health Professional Education in Substance Abuse,” sponsored by Health Resources and Services Administration with the Association for Medical Education and Research in Substance Abuse (2002-04)
Secretary to the Board, Society for Prevention Research (2001-2004)
Chair, American Public Health Association, Alcohol, Tobacco, and Other Drug Section (1998-2000)
Governing Council, American Public Health Association (1995-1996)
Fellow, Bush Institute for Study of Family Policy, Frank Porter Graham Child Development Center, University of North Carolina (1982-1984)

Professional Memberships

American Public Health Association; served as Chair of the Alcohol, Tobacco, and Other Drug Section
Society for Prevention Research; served as Secretary to the Board of Directors

NIH Study Sections

Center for Scientific Review Special Emphasis Panel (1999)
Health Services Research Subcommittee (2001, 2006)
National Institute on Alcohol Abuse and Alcoholism Special Emphasis Panel (2001)
National Institute on Drug Abuse Special Emphasis Panel (2002-2004; 2006-2009; 2011-2013)
National Center for Injury Prevention and Control Initial Review Group (2005)
Behavioral and Social Science Approaches to Preventing HIV/AIDS Study Section (2005-2006)
National Cancer Institute Special Emphasis Panel (2009-2010)
Center for Scientific Review Special Emphasis Panel (2009, 2013)
Behavioral and Social Consequences of HIV/AIDS Study Section (2009)
National Institute on Minority Health and Health Disparities Special Emphasis Panel (2012)
Training and Career Development Subcommittee (2012)
