

EDUCATION

- **University of Michigan (2006-2011), Ann Arbor, MI**
 - M.A., Statistics, May 2007
 - Ph.D., Statistics, May 2011
- **Duke University (2005-2006), Durham, NC**
 - Ph.D. Student, Institute for Statistics and Decision Sciences
- **UCLA (2002-2005), Los Angeles, CA**
 - B.S. Mathematics
 - Specialization in Computing
 - Summa Cum Laude

EXPERIENCE

- **North Carolina State University (2011-Present), Raleigh, NC**
 - Assistant Professor, Department of Statistics (2011-2016)
 - Associate Professor, Department of Statistics (2016-Present)
- **University of North Carolina (2016-Present), Chapel Hill**
 - Adjunct Associate Professor, Department of Biostatistics, (2016-Present)
- **University of Michigan (2008-2011), Ann Arbor, MI**
 - Research Assistant, Institute for Social Research
 - Directed by Susan A. Murphy
- **Journal of Sociological Methodology (2008-2010), Ann Arbor, MI**
 - Editor's assistant
 - Editor Yu Xie
- **University of Michigan (2008), Ann Arbor, MI**
 - Research Assistant, Department of Industrial and Operations Engineering
 - Directed by Judy Jin
- **Google, Inc., New York, NY**
 - Intern, Statistics Research Group
 - Directed by Diane Lambert

RESEARCH AREAS

Reinforcement learning; data-driven decision making; causal inference; statistical computing; optimization; empirical processes; bootstrap.

PUBLICATIONS

Peer Reviewed (asterisk indicates first author is student)

1. Qian, G.* , **Laber, E.B.** (2016), Reich, B.R. “Discussion of Bayesian Non-parametric Estimation for Dynamic Treatment Regimes with Sequential Transition Times,” invited discussion, *Journal of the American Statistical Association*, to appear.

- **Laber, E.B.** “Statistical inference and dynamic treatment regimes.”
- Meyer, N.J, **Laber, E.B.**, Reich, B., Pacifici, J.K. “Estimation of an optimal spatio-temporal allocation strategy without a system dynamics model.”
- Wu, F. **Laber, E.B.** “Adaptive projection intervals for non-smooth functionals.”

INVITED PRESENTATIONS

1. Methodology Center, Pennsylvania State University, September 2016.
2. Department of Biostatistics, Johns Hopkins University, September 2016.
3. Isaac Newton Institute Workshop on Network Science and its Applications, Cambridge, UK, August 2016.
4. Joint Statistical Meetings, Chicago, IL, August, 2016.
5. Department of Biostatistics, University of Michigan, April 2016.
6. Department of Statistics, George Mason University, April 2016.
7. Atlantic Causal Inference Conference, New York University, May 2016.
8. ENAR, Austin, TX, March 2016.
9. Department of Biostatistics, University of Michigan, December 2015.
10. Department of Statistics, University of Wisconsin, November 2015.
11. INFORMS, Philadelphia, PA, November 2015.
12. Conference in Honor of Vijay Nair, University of Michigan, October, 2015.
13. Joint Statistical Meetings, Seattle, WA, August 2015.
14. Reinforcement Learning and Decision Making, University of Alberta, June 2015.
15. Atlantic Causal Inference Conference, University of Pennsylvania, May, 2015.
16. Department Statistics, Marshall School of Business, University of Southern California, March, 2015.
17. Department of Statistics, Harvard University, Boston MA, February 2015.
18. Department of Biostatistics, Duke University/Veteran Affairs, Durham NC, February 2015.
19. Plant Sciences Institute, Iowa State University, Ames, IA, December 2014.
20. Department of Statistics, Virginia Tech., Blacksburg, VA, November 2014.
21. Innovative Methods for Advancing Clinical Trials, Cary, NC, November, 2014.
22. Affinity group on clinical trials, Fred Hutchinson Cancer Research Center, Seattle, WA, October 2014.
23. Biostatistics Group, Fred Hutchinson Cancer Research Center, Seattle, WA, October 2014.
24. Department of Biostatistics, University of Washington, Seattle, WA, October 2014.
25. International Conference on Advances in Interdisciplinary Statistics and Combinatorics, University of North Carolina at Greensboro, Greensboro, NC, October 2014.
26. Department of Biostatistics, Causal Inference Working Group, University of North Carolina at Chapel Hill, Chapel Hill, NC, October 2014.
27. Statistics Week, Hannover, Germany, September 2014.

28. Department of Biostatistics, University of Pennsylvania, Philadelphia, PA, September 2014.
29. Joint Statistical Meetings, Boston, MA, August, 2014.
30. Atlantic Causal Inference Conference, Brown University, Providence, RI, May 2014.
31. Midwest Biopharmaceutical Statistics Workshop, Ball State University, Muncie, IN, May 2014.
32. Trends and Innovations in Clinical Trial Statistics Conference, Morisville, NC, April 2014 (workshop and panelist).
33. Department of Biostatistics, University of Pittsburgh, Pittsburgh, PA, April 2014.
34. Duke-NUS, Singapore, Singapore, March 2014 (Seminar and Workshop).
35. Annual Connecticut Chapter Mini-Conference, Ridgefield, CT, March 2014.
36. Quintiles, Morisville, NC, October 2013.
37. NIPS, Workshop on Causality and Experimental Design, Lake Tahoe, NV, December 2013.
38. INFORMS, Minneapolis, MN, October 2013.
39. Society for Medical Decision Making, Baltimore, MD, selected for oral presentation.
40. y-BIS, Istanbul, Turkey, September 2013.
41. Joint Statistical Meetings, Montreal QC, August 2013.
42. ENAR, Orlando, FL, March, 2013.
43. Department of Biostatistics Seminar, McGill University, January 2013.
44. Department of Statistics, West Virginia University, December 2012.
45. Fred Hutchinson Cancer Research Center Seminar, November 2012.
46. Department of Mathematics and Statistics, Georgetown University, November, 2012.
47. H. Milton Stewart School of Industrial and Systems Engineering Seminar, Georgia Tech, October 2012.
48. Department of Biostatistics, University of North Carolina Chapel Hill, October 2012.
49. International Conference on Advances in Interdisciplinary Statistics and Combinatorics, Greensboro, NC, October 2012
50. Department of Biostatistics Seminar, Columbia University, September 2012.
51. Personalized medicine cluster retreat, North Carolina State University, Raleigh, NC, August 2012.
52. Joint meeting of y-BIS and jSPE, Lisbon, Portugal, 2012.
53. ASA Section on Statistical Learning and Data Mining, Ann Arbor, MI, 2012.
54. International Chinese Statistical Association Applied Statistics Symposium, Boston, MA, 2012.
55. Society for Clinical Trials, Miami, FL, 2012.
56. ENAR, Washington, D.C., 2012.
57. ISBIS, Bangkok, Thailand, 2012.

58. Department of Statistics, University of Minnesota, Minneapolis, MN, February 2012.
59. IMPACT, Durham, NC, 2011.
60. INFORMS, Charlotte, NC, 2011.
61. Department of Statistics, University of Washington, Seattle, WA, February 2011.
62. Department of Statistics, Rutgers University, New Brunswick, NJ, January 2011.
63. Department of Statistics, Columbia University, New York, NY, January 2011.
64. Department of Statistics, North Carolina State University, Raleigh, NC, January 2011.
65. Department of Statistics, University of Florida, Gainesville, FL, January 2011.
66. 28th European Meeting of Statisticians, Pireaus, Greece, 2010.
67. Joint Statistical Meetings, Vancouver, B.C., Canada, 2010.
68. International Chinese Statistical Association Applied Statistics Symposium, Indianapolis, IN, 2010.
69. Student Symposium for Interdisciplinary Statistical Sciences, Ann Arbor, MI, 2010. Highlighted student talk.
70. Ford Credit, Dearborn MI, 2009.
71. Workshop on Challenges in Statistical Theory: Complex Data Structures and Algorithmic Optimization, Oberwolfach Germany, 2009.
72. Joint Statistical Meetings, Washington D.C., 2009.

HONORS AND AWARDS

- Consortium for Nonproliferation Enabling Capabilities (CNEC) Affiliated Faculty 2016-
- Laboratory for Analytic Sciences Consortium Fellow, 2016-2017
- Distinguished Alumni Award, Pennsylvania State Methodology Center, 2016
- Cavell Brownie Mentoring Award: 2015-16
- Invited speaker, meeting on Network Science and its Applications at Isaac Newton Institute, Cambridge, September, 2016
- NSF CAREER AWARD (2016-2021)
- North Carolina State University Faculty Scholar, 2016-2020
- Invited discussant, JASA Case Studies and Applications Invited Paper, Joint Statistical Meetings, Chicago, IL, August, 2016
- Invited participant, NSF INNOVATIONS Lab, SAMSI, July, 2015
- Invited discussant, JASA Theory and Methods Invited Paper, Joint Statistical Meetings, Seattle, WA, August, 2015
- Invited participant Abel Symposium, Trondheim, Norway, May 2014
- Invited participant Future of Statistical Sciences Workshop, London, UK, October 2013 (with funding)
- SAMSI faculty fellow, 2012-2013 program on data-driven decisions in healthcare
- Selected for the 2011 JASA Theory and Methods invited paper
- Rackham Predoctoral Fellowship, University of Michigan, 2010.
- Selected for highlighted student talk, MSSISS, 2010
- US Junior Oberwolfach Fellow, Oberwolfach Germany, 2009

- 20th Annual Albert J. Silverman Trainee Poster Award, 3rd Place, Ann Arbor, MI
- Best poster, Second Midwest Statistics Research Colloquium, Chicago, IL, 2009
- Nominated by University of Michigan for Microsoft Graduate Fellowship, 2008
- Travel Grant, IPAM, Workshop on Multiscale Resolution, UCLA, 2008
- Travel Grant, Uncertainty in Artificial Intelligence, Helsinki, Finland, 2008
- Travel Grant, Rackham Graduate School, University of Michigan, 2008
- Interdisciplinary Statistics Working Group Grant, University of Michigan, 2008
- Quantitative Methodology Program Fellowship, University of Michigan, 2007
- Outstanding First Year Ph.D. Student, University of Michigan, Department of Statistics, 2007
- JB Duke Fellowship, Duke University, 2006
- Sherwood Award in Mathematics, UCLA, 2005

Professional Activities

- Organizing committee Atlantic Causal Inference Conference, Chapel Hill, NC, May 2017
- Editorial Board, Statistical Communications in Infectious Diseases, 2017-
- Chair, ASA Presidents Initiative on Outreach, 2016-2017
- Organizing committee meeting of the ASA Section on Statistical Learning and Data Mining, Chapel Hill, NC, June 2016
- STEM discipline outreach videogame demonstration, USA Science and Engineering Festival, spring 2016
- STEM discipline outreach videogame demonstration, NC Museum of Natural Science, spring 2016
- Co-Guest editor Statistical Methods in Medical Research (SMMR) special issue on “Optimal Dynamic Treatment Regimes,” fall 2016
- Council of Sections Representative, 2016-2018, ASA Section on Statistical Learning and Data Mining
- Program Chair-Elect, 2016, ASA Section on Statistical Computing
- Associate Editor, Journal of the American Statistical Association, 2015-Present
- Diversity Mentor, Joint Statistical Meetings, Seattle, WA, 2015
- Associate Editor, Biometrika, 2015-Present
- Associate Editor, Statistical Analysis and Data Mining , 2013-Present
- Associate Editor, ISI StatBlog, 2013-2014
- Ad hoc grant reviewer for NSA and Department of Veteran Affairs
- NIH review panel, BMRD study section
- Technical expert, Federal Highway Administration research meeting, NISS, 2013
- Speaker undergraduate workshop on personalized medicine, SAMSI, Durham, NC, 2013
- Co-organizer and speaker at workshop on personalized medicine, IMPACT, Durham, NC, 2012
- Vice president elect of y-BIS, 2013

- Reviewer for Annals of Applied Statistics, Annals of Statistics, Biometrics, Biometrika, Biostatistics, Clinical Trials, Electronic Journal of Statistics, International Statistical Review, International Journal of Biostatistics, Journal of the American Statistical Association, Journal of the Royal Statistical Society (Series B), Journal of Multivariate Analysis, Journal of Sociological Methodology, Journal of Statistical Research, Nonparametrics, Scandinavian Journal of Statistics, Statistics in Medicine, Statistical Analysis and Data Mining, among others
- Chair young researchers advisory committee STAT journal of statistics, 2012
- Guest editor Communications in Statistics: Simulation and Computation, special issue on the joint meeting of y-BIS and jSPE
- Organizing committee joint meeting of ASA Section of Statistical Learning and Data Mining and ISBIS, Durham, NC, 2014.
- Organized invited sessions at
 - SLDM, 2016, Chapel Hill, NC
 - Atlantic Causal Inference Conference, Philadelphia, PA, 2015
 - ISI World Congress, Rio, Brazil, 2015.
 - IMPACT, Cary, NC, 2014.
 - SLDM, Durham, NC, 2014.
 - Joint y-BIS ENBIS Meeting, Istanbul, 2013.
 - ISI Meeting, Hong Kong, 2013.
 - IMPACT Symposium, Raleigh, NC, 2012.
 - Joint Statistical Meeting, San Diego, CA, 2012.
 - ASA Section on Statistical Learning and Data Mining, Ann Arbor, MI, 2012.
 - ISBIS, Bangkok Thailand, 2012.
 - ISBIS Joint Meeting with the Portuguese Statistical Association, Lisbon, Portugal, 2012.
 - ISCA Applied Statistics Symposium, Boston, MA, 2012

STUDENTS DIRECTED

Completed

- Yichi Zhang, PhD, 2016, List-based treatment regimes. (Co-advisors: Marie Davidian and Butch Tsiatis.) Post-doctoral fellow, Harvard University.
- Fan Wu, PhD, 2015, “Adaptive projection intervals for non-smooth functionals.” Seattle Genetics.
- Kristin A. Linn, PhD, 2014. “Interactive methods for estimation of optimal dynamic treatment regimes.” (Co-advisor: Len Stefanski.) Post-doctoral fellow, University of Pennsylvania.
- Kasturi Talapatra, PhD 2014. “Computer aided simulation design.” (Co-advisor: Len Stefanski.) Consultant, SAS Institute.
- Todd Reigh, MS. 2013. (Co-advisor: Marie Davidian.) Biostatistician, Boston Childrens Hospital.
- Na Zhang, PhD, 2014. “Variable selection for personalized medicine.” (Co-advisor: Howard Bondell.) Biostatistician, Bristol-Meyers-Squibb.

Current

- Yeng Saanchi, PhD, 2021, “Network estimation in illegal trafficking problems.”

- Joyce Yu, PhD, 2021, “Using mHealth technologies to inform monitoring and interventions in food safety.”

SUPPORT

Funded or recommended

1. Investigator, 1 R01 CA202779-01, “Optimizing Delivery of a Behavioral Cancer Pain Intervention Using a SMART,” (\$102,952, 2016-2021), NIH.
2. Principal Investigator, U01 MD011281-01, “A Pragmatic Trial of An Adaptive eHealth HIV Prevention Program for Diverse Adolescent MSM,” (NCSU Sub-contract \$191,201, total award 9.3m, 2016-2021), NIH.
3. Investigator, “Forensic Geolocation via Biological Signatures,” (PI Faith, \$1,115,000, 2016-2017), DOD.
4. Principal Investigator, DMS-1555141, “CAREER: Big computation and the management of emerging infectious diseases,” NSF, (\$564,708, 2016-2021).

5. Principal Investigator, DMS-1557733, “QuBBD: Collaborative Research: Precision medicine and the management of infectious diseases,” NSF, (\$47,1440, 2015-2016).
6. Principal Investigator, “Research Collaboration Between SAS Institute and NCSU: Tuning Parameter Section in LASSO Regression and Related Regression Selection Methods,” SAS Institute (\$127,911, 2015-2016).
7. Investigator, R01-DK-108073, “Statistical methods for complex patients with diabetes,” NIH (PI Zhao, NCSU subcontract \$128,670, 2015-2018).
8. Principal Investigator, DMS-1513579, “Optimal Decision Strategies for Large Spatio-Temporal Decision Problems,” NSF (\$150,000, 2015-2018).
9. Investigator, “Advancing the use and application of diverse data sources and species distribution models,” (PI Collazo), USGS (\$300,000, 2014-2018).
10. Investigator, 1R01DE024984-01A1 “Spatiotemporal models for periodontal disease monitoring and recall frequencies,” NIH (PI Bandyopadhyay, NCSU subcontract \$373,499, 2015-2019).
11. Investigator, 1R01CA202779-01 “Optimizing delivery of a behavioral cancer pain intervention using a SMART,” under review, NIH (scored 29, 13th percentile).
12. Investigator, 1R01 AA023187-01A1 “Data-Based Methods for Just In Time Adaptive Interventions in Alcohol Use,” NIH (PI Murphy, NCSU subcontract \$87,823).
13. Investigator, Research and applications in support of the National Gap Analysis Program, USGS (PI Collazo, 2014-2018, \$1,616,571).
14. Principal Investigator, Murdock Gift, Subcontract of Duke SEDI Project (PI Rob Calliff) (\$44,740, 2014-2015).
15. Co-Principal Investigator, DMS0703392, “CSUMS: NC State University computation for undergraduates in statistics program,” NSF (PI Reich, 2011-2014, \$770,714).
16. Co-Principal Investigator, PR-W-F14AF00171, “Conservation Design and Habitat Conservation in Puerto Rico,” USGS (PI Collazo, \$1,364,995, 2014-2017).
17. Investigator, P01 CA142538, “Statistical methods for cancer clinical trials,” NIH (PI Kosorok, \$10,328,825, 2015-2020).
18. Investigator, “Relationship between gait analysis, MRI findings, and response to potassium channel blockade in chronically paralyzed dogs: a personalized medicine pilot study,” NCSU (PI Olby, \$17,800, 2014).
19. Principal Investigator, NSCU Minigrant, external mentoring, 2012.

Submitted

1. Investigator, “A spatiotemporal recommendation engine for malaria control,” (PI Reich, \$100,000) under review Gates Foundation.
2. Investigator, “I-SPY 2+: Evolving the I-SPY 2 TRIAL to Include MRI-directed, Adaptive Sequential Treatment in the Setting of Non-Response,” (PI Davidian, \$128,356), under review NIH-NCI.
3. Principal Investigator, “A Pragmatic Trial of An Adaptive eHealth HIV Prevention Program for Diverse Adolescent MSM,” (\$191,201), under review NIH-NIMHD.

4. Principal Investigator, “Optimization, Implementation, and Dissemination of a Tailored Translational Communication Intervention to Reduce Colorectal Cancer Health Disparities,” (\$129, 364), under review, Bankhead-Coley Cancer Research Program.
5. Investigator, “Statistical methods for Healthcare of Complex Patients with Diabetes,” (PI Zhao, \$128,670), under review, NIH-NIDDK.

Teaching

New course design

1. Advanced Computing (STAT 790), targeted at advanced PhD students in statistics and related fields. Topics covered: reproducible research, convex optimization, dynamic programming, EM/MM algorithms, heterogeneous computing, and Bregman iteration.
2. Undergraduate Survival Analysis (STAT 495), targeted at senior undergraduate students. Topics covered: parametric, semi-parametric, and non-parametric models for censored data, and modeling time-to-event data in R.
3. Communicating Science (STAT 810), targeted at PhD students in statistics. Topics covered: reading and writing science, using social media to disseminate science, collaborative research, and interview skills.
4. Big Data (STAT 590, first offered Fall 2016 as part of Data Science certificate program). Topics covered: sampling, causal inference, scaling estimation and inference to large data, and complex data structures.
5. Introduction to Programming and Computing Through Statistics (TBD, first offered in 2016-2017 academic year). Topics covered: basic computer programming, random number generation, statistical simulation experiments, bootstrap, and permutation tests.

Evaluations

Summary comments from peer evaluations:

“My summary impression of Eric’s teaching is very positive. It is clear that he enjoys being in the classroom and that he respects his students—two main ingredients of successful teaching.” –Len Stefanski, Drexel Professor of Statistics, NCSU

“Overall, Eric’s skills in delivering the lecture were excellent. The lecture paced appropriately and held student attention for the entire 75 minutes. The group activities and Eric’s lecture style made the lecture seem much shorter than its 75-minute length.” –Tom Reiland, Professor of Statistics, NCSU

Selected comments from student evaluations:

“Dr. Laber is one of the best teachers I have had in my entire time here at NCSU. He teaches effectively, is friendly and respectful to students, and is extremely fair in making and grading assignments. He is also incredibly patient, explaining the same topic multiple times until everyone understands it, if necessary.” –Student in STAT370 (Intro Stats)

“Dr. Eric Laber is the most awesome teacher I ever had in this school. I am a not that into statics [sic] but because of him it ended up being one the most effectively educational and interesting class to attend.”–Student in STAT370 (Intro Stats)

“Yes, Dr. Laber was the best professor that I have ever had. Although the course material is very hard, he was always very patient to go over the information many times and make sure everyone understand. He gave every one of the lecture with passion and made the course material very interesting to be learned. He cares about every student. We all love him!”–Student in STAT495 (Undergrad Survival)

“On a scale from one to awesome, he’s super great.” –Student in STAT745 (Graduate Survival)

“Eric Laber was an engaging and enthusiastic teacher. The guest lectures he arranged were also very informative. He is genuinely interested in helping his students learn a lot from the class. One of the very best teachers in the program.” –Student in STAT810 (Advanced Computing)

**COMMITTEE
WORK AT NC
STATE
UNIVERSITY**

- Advancement Committee (Fall 2016)
- Big data committee (Spring 2014, Fall 2014, Spring 2015)
- Junior faculty representative (Fall 2013-Present)
- Department steering committee (Fall 2013, Spring 2014)
- Basic exam committee (Spring 2013)
- Departmental seminar committee (Fall 2011, Spring 2012)

ODDITIES

- Spent 12 years as a professional magician, performed more than 3000 shows
- Currently collects books on magic tricks and magic history
- Once hung upside down from a crane and escaped from a straight jacket
