

Adaora Alise Adimora, MD, MPH

101 Songbird Lane
Chapel Hill, NC
27514
(919) 933-2898

Division of Infectious Diseases
CB #7030
Chapel Hill, NC 27599-7030
(919) 966-2536
adimora@med.unc.edu

EDUCATION AND PROFESSIONAL TRAINING:

- 1990 - 1993 UNIVERSITY OF NORTH CAROLINA at Chapel Hill
MPH in Epidemiology, May, 1993.
- 1984 - 1986 MONTEFIORE/ALBERT EINSTEIN COLLEGE OF MEDICINE,
Bronx, NY
Clinical and Research Fellow, Infectious Diseases
- 1981 - 1984 BOSTON CITY HOSPITAL, Boston, MA
Internship and Residency in Internal Medicine
- 1977 - 1981 YALE UNIVERSITY SCHOOL OF MEDICINE, New Haven, CT
MD, May, 1981.
- 1973 - 1977 CORNELL UNIVERSITY, Ithaca, NY
BA, May, 1977.

PROFESSIONAL EXPERIENCE AND EMPLOYMENT HISTORY:

EMPLOYMENT:

- 2009 – Present Professor, UNC School of Medicine, Department of Medicine, Division of Infectious Diseases
- 2003 – 2009 Associate Professor, UNC School of Medicine, Division of Infectious Diseases
- 1997 – 2003 Assistant Professor, UNC School of Medicine, Division of Infectious Diseases
- 1989 – 1997 Clinical Assistant Professor of Medicine, UNC School of Medicine, Division of Infectious Diseases
- 1989 - 1990 Assistant Chief for Science, Communicable Disease Control Section, Division of Epidemiology, North Carolina Department of Environment, Health and Natural Resources
- 1988 - 1989 Assistant Head, Communicable Disease Control Branch, Division of Health Services, North Carolina Department of Human Resources
- 1988 - 1988 Attending, Medical Division, Dorothea Dix Hospital, Raleigh, NC

Adaora Alise Adimora, MD, MPH

2009 The Root 100, presented by The Root (published by a division of the Washington Post Company) “recognizes established and emerging African American leaders who are making extraordinary contributions.”

2009 23rd Lecturer, Indiana University Class of 1947 Annual STD Lecture, presented by Indiana University School of Medicine.

TEACHING:

Please see teaching statement on pages 27-28 of this document.

CONTINUING EDUCATION AND COURSE LECTURES AT UNC

Carolina Regional Hospital/ Dorothea Dix Hospital (a UNC affiliate) – 4 lectures per year since 1993

Adaora Alise Adimora, MD, MPH

Epidemiology 805/806 (formerly known as K30 small group series) – Seminar leader - 2008 – 2011; 2012 - 2013

“HIV and African Americans.” What’s the Big Idea: UNC Professional Development and Enrichment Programs, William and Ida Friday Center for Continuing Education, University of North Carolina, Chapel Hill, April 16, 2009.

Lectures in the following courses:

English 71H, Doctors and Patients - March, 2014

English 268, Medicine, Literature, and Culture – September, 2012

Epidemiology 753, Epidemiology at the Community Level – October, 2011

Epidemiology 753, Epidemiology at the Community Level – October, 2009

Epidemiology 141, Epidemiology of sexually transmitted infection – March, 2006

TRAINEES

Name of Trainee*	Pre/Postdoc /Faculty	Training Start and End Dates	Degree	Current Position/Source of Support
Terra Fatukasi	Predoc	2015-		Predoc, Viiv Healthcare
Belenky, Nadya	Predoc	2015-	MPH	Doctoral candidate

Adaora Alise Adimora, MD, MPH

Todd, Jonathon	Postdoc	2015-	PhD	Postdoc
Cope, Anna	Postdoc	2015-	PhD	Postdoc
Ashley Buchanan	Predoc	2013 -2015	MS	Postdoc
Ludema, Christina	Postdoc	2013 -	PhD, UNC-CH	Postdoc
Jennifer Stewart	Faculty	2013 -	RN, PhD	Asst Prof, Johns Hopkins University
Farel, Claire	Faculty	2012 - Present	MD	Clinical Fellow
Oramasionwu, Christine	Faculty	2011 -	PharmD, PhD	Asst Prof, UNC-CH
Carter, Yvonne	Postdoc	2007 - 2011	MD, MPH, UNC-CH	Attending physician
White, Becky	Faculty	2008 - Present	MD	Asst Prof, UNC-CH
Taylor, Eboni	Predoc	2008 - 2011	PhD, UNC-CH	EIS Officer, CDC
Menezes, Prema	Predoc	2009 - 2012	PhD, UNC	Clinical Assoc Prof, UNC-CH
Mobley, Vicki	Postdoc	2009 - 2012	MD, MPH	Medical Epidemiologist, NC DEHNR
Atashili, Julius	Postdoc	2003 - 2009	MD, PhD	Asst Lecturer, Epidemiology, U Buea, Cameroon
Yotebieng, Marcel	Postdoc	2003 - 2009	MD, PhD	Asst Prof, Epidemiology, UNC -CH
Khan, Maria	Predoc	2007 - 2009	PhD	Asst Professor, U Florida, Gainesville, FL
Doherty, Irene	Postdoc	2004 - 2007	PhD	Senior Epidemiologist, RTI
Hightow-Weidman, Lisa	Faculty	2006 - 2010	MD, MPH	Clin Assoc Prof Med, UNC-CH
Hurt, Christopher	Faculty	2010 - 2011	MD	Asst Prof Med, UNC-CH

Adaora Alise Adimora, MD, MPH

*Trainees listed are those for whom I have mentored (typically with another faculty member) and/or served on a dissertation committee.

CONTINUING EDUCATION LECTURES OUTSIDE UNC

Cultural Barriers to Care, HIV Management: The New York Course – May, 2013

Lessons from the Experts: Optimal Screening and Antiretroviral Treatment among Subpopulations of People with HIV, Medscape – April, 2011

African Americans and HIV: New Developments in Clinical Management, The Body PRO – June, 2008

Drivers of the HIV Epidemic Among African Americans, New York City DIME Course – April, 2008

TRAINING GRANT DIRECTOR

Principal Investigator and Director, UNC Fogarty AIDS International Training and Research Program – 1998 – 2014

ATTENDING ON CLINICAL SERVICE

Infectious Disease Ward (Med K) – 2 weeks per year

Infectious Disease Consult Service – 2 weeks per year

Infectious Disease Clinic ½ day per week

LECTURES AND INVITED PRESENTATIONS

“Public Health in a Hostile Environment: Racial Inequality and STD/HIV in the US.” STD Prevention Science Series, Centers for Disease Control and Prevention, Atlanta, June 4, 2015.

“Epidemiology of HIV Infection in the US: What Should a Clinician Know in 2015?” American Conference for the Treatment of HIV (ACT HIV), Dallas, April 30, 2015.

“Population Sexual Network Patterns and Heterosexual HIV Transmission.” Infectious Diseases Epidemiology Seminar Series, Mailman School of Public Health, Columbia University, New York City, February 21, 2014.

“Heterosexual HIV Transmission and African Americans: Networks and Context.” Department of Medicine Grand Rounds, Johns Hopkins University School of Medicine, Annual Visiting Professorship, Baltimore, MD, February 7, 2014.

“Drivers of the HIV Epidemic in the Southern US.” Paper #55. Presented at the 20th Conference on Retroviruses and Opportunistic Infections, March 4, 2013, Atlanta, GA.

Adaora Alise Adimora, MD, MPH

“Epidemiologic Overview of HIV Infection among Black Women in the US.” AIDS 2012 Pre-Session On Black Women and HIV with Alicia Keys. The White House Office of National AIDS Policy, Washington DC, July 21, 2012.

“Social Determinants of HIV Infection: Gender, Race, and Poverty.” CFAR Social Behavioral Science Research Network 6th National Meeting, University of North Carolina at Chapel Hill and Duke University, Chapel Hill, NC. March 1, 2012.

“Sex Differences in Behavioral and Structural Factors Affecting HIV Risk and Prevention.” amFAR Conference on Sex Differences in HIV/AIDS. Washington, DC. January 11, 2012.

“Social Determinants of HIV Infection.” 2nd International Workshop on HIV and Women. Washington, DC. January 10, 2012.

“HIV Prevention among Women in 2011: Current Status and Existential Questions.” World AIDS Day Medical Grand Rounds, University of Medicine and Dentistry of New Jersey, New NJ. November 29, 2011.

“Sex Ratio, Poverty, and Concurrent Partnerships Among Men and Women in the United States.” Medicine and Society, UNC School of Medicine. Chapel Hill, NC, September 28, 2011.

“Update on HIV Prevention: Summary of 2011 International AIDS Society Meeting in Rome.” Project GRACE Consortium Meeting, Rocky Mount, NC, September 19, 2011.

“HIV Prevention at IAS: Track C Overview.” 6th International Conference on HIV Pathogenesis, Treatment, and Prevention, Rome. July 17-20, 2011.

“The Cost of Racial Disparities in HIV Infection: What can North Carolina do?” The Economic Impact of Health Disparities: 2011 Health Summit, The North Carolina Legislative Black Caucus Foundation, Raleigh, NC, January 7, 2011.

“Racial Disparities in Heterosexually Transmitted HIV in the United States.” Symposium: “The Forgotten Epidemic.” Harvard University Center for AIDS Research, Harvard University, November 19, 2010.

“Sex Ratio, Poverty, and Concurrent Partnerships among Men and Women in the United States.” 14th Annual Center for AIDS Research (CFAR) Conference, UCLA, Los Angeles, CA, November 4, 2010.

“Racial Disparities in Heterosexually Transmitted HIV Infection.” Southern Journalists Roundtable The Race Beat: Then and Now, University of North Carolina at Chapel Hill, Chapel Hill, NC, October 15, 2010.

“HIV and Women in North Carolina.” Women of Color and HIV: 3rd Annual Community Forum, Durham, NC, March 5, 2010.

“Disparities in HIV and AIDS.” Women and HIV, The White House, Washington, DC, December 8, 2009.

“Drivers of the Epidemic of Heterosexually Transmitted HIV Infection Among U.S. Women.” 12th Annual Clinical Conference for the Ryan White HIV/AIDS Program, Dallas, October 15, 2009.

Adaora Alise Adimora, MD, MPH

“Drivers of the Epidemic of Heterosexually Transmitted HIV Infection among Women.” George Phillips, Jr Memorial Lecture, Duke University Medical Center, Durham, NC, May 22, 2009.

“Drivers of the HIV Epidemic among African Americans.” HIV and Health Disparities: Prevention, Access to Care and Adherence. El Centro Regional Seminar Series and University of Miami, Orlando, FL, April 28, 2009.

“Sexual Networks and HIV Risk in Women.” NIH Office of AIDS Research Advisory Council. Rockville, MD, April 23, 2009.

TEACHING PHILOSOPHY AND STATEMENT:

Over the years I have taught in diverse settings. My philosophy is based on a few simple assumptions and understandings: 1) Everyone I encounter in my teaching sessions wants to learn; 2) both the learner and I benefit from honest feedback; and 3) it's often necessary to adapt the teaching style or format to the environment. The paragraphs below outline some of the settings in which I have taught over the years.

Grant writing training

For a number of years I taught a small group session in Epidemiology 805-806, a course that gives advanced postdoctoral fellows and junior faculty training and practice in writing NIH grants. Each student is expected to submit a draft grant application for mock review at the end of the year. The most successful students are those who use these sessions as a laboratory for crafting an actual grant for submission to the NIH. During the sessions each student receives specific feedback on their draft from the leader and the other students. Students provide each other with remarkably insightful feedback, but typically find it much more difficult to actually write an application themselves – in part because they have seen few if any examples of funded applications. In response, I provided my session members with applicable parts of my grants.

Continuing education for health professionals

Each year I give 4 weekly infectious disease lectures during the course of one month at Central Regional Hospital to a diverse audience that includes attending physicians (in internal medicine, psychiatry, and family medicine), physician extenders, psychiatry residents, pharmacists, and other health professionals. I have found that I best maintain their interest by soliciting their ideas for lecture topics and expanding the lecture format to include board-type questions that they answer as a group.

Clinical teaching and mentoring

Like most clinical faculty, I teach medical students, residents, and fellows on the Internal Medicine ward and Infectious Diseases consult service. Although the residency program prefers that attending physicians give didactic lectures on specific topics, the major

Adaora Alise Adimora, MD, MPH

challenge in this exceptionally hectic environment is the combination of lack of time and critically ill patients. I counter this by using patients on the ward as a springboard for short discussions, since learners are more likely to retain information that relates to patients they have seen than information that is not tied to specific cases. In addition, I set aside short periods for individual sessions with medical students to address their questions and work on specific skills, such as case presentations. I review each student and resident's performance with them individually half-way through the rotation and at its conclusion.

My K24 award has enabled me to do a significant amount of mentoring – mainly of graduate students and postdoctoral fellows. I typically incorporate these trainees into my research, which provides them with practical experience. I also provide career mentoring.

Training for foreign researchers

I have been Principal Investigator and Director of the UNC Fogarty AIDS International Training Research Program (UNC AITRP) since its inception in 1998. As part of my role I have mentored trainees and conducted short-term in-country research training. This program has trained scores for researchers from Malawi, China, and Cameroon. Many have earned degrees in epidemiology and other disciplines and continue to contribute to HIV prevention research efforts after returning to their countries of origin.

Women's Interagency HIV Study (WIHS)

An unexpected benefit of my role as Principal Investigator of the UNC Women's Interagency HIV Study (UNC WIHS) is the extraordinary opportunities it gives for teaching and training that benefit not only the site, but also other investigators. From the start of the grant its premise has been that we would benefit from the exceptional resources and talent pool at UNC and one of the ways we would do this is to engage trainees and junior and senior investigators. Several months after we received our notice of award we began to have monthly working group meetings to familiarize investigators and students throughout the campus with the grant. These meetings are attended by a wide variety of researchers, including senior faculty, junior faculty, postdoctoral trainees, and graduate students. The meetings build in opportunities for discussion, networking, and collaboration. Our core leadership includes faculty and staff who assist investigators with selection of variables from WIHS' formidable existing data. We encourage investigators to submit concepts for all types of research: from grant applications for new data collection – to unfunded analysis of existing data. During the past few months alone, one doctoral student and two junior faculty members have submitted concepts that have been approved by the national WIHS leadership, and several additional concept submissions are planned by other investigators.

Adaora Alise Adimora, MD, MPH

Adaora Alise Adimora, MD, MPH

REFLECTIVE STATEMENT:

Much of my research could be characterized as social epidemiology with a focus on sexual behavior and the social and economic context of sexually-transmitted infections, including HIV. The ultimate goal of this work is to help end the AIDS epidemic –particularly it's disproportionate impact on minority populations. Some of my research is highlighted immediately below.

My work with Dr. Victor Schoenbach (UNC Epidemiology) has demonstrated the prevalence and correlates of sexual network patterns that facilitate population HIV transmission. Specifically, our population-based studies have noted a higher prevalence of concurrent sexual partnerships (sexual partnerships that overlap in time) among African-Americans than other Americans. This higher prevalence does not reflect racial differences toward partnerships, but appears instead to be largely a product of social and economic factors, such as group-level poverty and a low ratio of men to women (sex ratio), that discourage long-term monogamy. Recently, we empirically demonstrated the association between concurrency and other neighborhood-level poverty and the low sex ratio. These findings have substantial implications for prevention of HIV infection and other diseases.

My work includes community-based research with development of interventions to prevent HIV infection. A study conducted in collaboration with Centers for Disease Control investigators outlined risk factors for HIV infection among women in the South. I worked with investigators from the UNC's Schools of Public Health and Journalism to develop a mass media campaign whose goal is to disseminate results of our previous concurrency research and make attitudes of African Americans in eastern North Carolina less favorable to concurrency. We are currently evaluating the effects of the campaign. A community-based project conducted in collaboration with Shaw University, a local historically Black College/University (HBCU), showed that pastors of North Carolian Black churches are willing and able to participate in HIV prevention by developing and incorporating messages about sexual behavior into their sermons.

I recently extended my research to The Women's Interagency HIV Study (WIHS), an NIH funded multi-center study that has been operational since 1993. The WIHS is the largest cohort of women with and at risk for HIV infection in the US (and probably the world). But despite the importance of the epidemic in the South, the study had no representation in this region until 2012 when we successfully competed to become one of the new Southern sites. Through UNC WIHS I am fortunate to collaborate with investigators from many disciplines here at UNC and throughout the nation in epidemiologic, clinical, and translational research. This study represents an extraordinary opportunity to engage investigators – including young investigators – from a variety of disciplines here at UNC and facilitate their networking and collaboration with nationally known HIV researchers.

I also serve as Chair of the HIV Prevention Trials Network's Women at Risk Committee. Our committee, composed of internationally known investigators, is charged with helping

Adaora Alise Adimora, MD, MPH

to develop an agenda for research that results in prevention of HIV infection among women throughout the world.

These activities have provided a platform for many teaching opportunities, and my NIH K24 mentoring award and position as Principal Investigator and Director of UNC Fogarty AIDS International Training and Research Program (AITRP) have facilitated mentoring of graduate students, postdoctoral fellows, and junior faculty. Since its inception in 1998, UNC Fogarty AITRP has trained scores of researchers from Malawi, China, and Cameroon; most have returned to their countries to continue their contributions to HIV prevention research.

My future work will continue its focus on ending the disproportionate burden of the AIDS epidemic on minorities in the US with a particular emphasis on the southern United States. I plan to strengthen UNC WIHS and continue research through this and other collaborative research venues. I also hope to help guide the international AIDS research community toward prevention of HIV infection among women throughout the world. And finally, I plan to continue advocacy for HIV providers and our patients through my positions in the leadership of the HIV Medical Association and the Presidential Advisory Committee on HIV/AIDS.
