PROFESSIONAL EXPERIENCE

- 2012 – present **Director**
Communications for Health Applications and Interventions Core
Core resource funded by NIDDK -Nutrition Obesity Research Center (P30 DK056350) and NCI – Lineberger Cancer Center Core Grant (P30 CA16086)
- 2015 – present **Professor, (with tenure)**
Department of Health Behavior and Health Education
Department of Nutrition, Gillings School of Global Public Health and School of Medicine
University of North Carolina, Chapel Hill, North Carolina
- 2010 – 2015 **Associate Professor, (with tenure)**
Department of Health Behavior and Health Education
Department of Nutrition, Gillings School of Global Public Health and School of Medicine
University of North Carolina, Chapel Hill, North Carolina
- 2004 – 2010 **Assistant Professor**, Department of Health Behavior and Health Education
Department of Nutrition, Gillings School of Global Public Health and School of Medicine
University of North Carolina, Chapel Hill, North Carolina
- 2004 – 2007 **Adjunct Assistant Professor**

Department of Psychiatry and Human Behavior
Brown Medical School, Providence, Rhode Island

2000–2004 **Assistant Professor (Research)**
Department of Psychiatry and Human Behavior
Weight Control and Diabetes Research Center
Brown Medical School, Providence, Rhode Island

2000-2004 **Staff Psychologist**
Miriam Hospital, Providence, RI

1999 – 2000 **Post-doctoral Fellow**
Centers for Behavioral and Preventive Medicine
Weight Control and Diabetes Research Center
Department of Psychiatry and Human Behavior
Brown University and Miriam Hospital
Providence, Rhode Island

1997-1998 **Psychology Intern**
Brown University Clinical Psychology Training Consortium
Dept. of Psychiatry and Human Behavior
Providence, Rhode Island

1995 **Psychology Extern**
Veterans Affairs Medical Center
Salem, Virginia

1992-1997 **Graduate Research Assistant and Graduate Teaching Assistant**
Department of Psychology
Center for Research in Health Behavior (CRHB)
Virginia Tech, Blacksburg, VA

HONORS

2009 **Delta Omega**, Theta Chapter, National Public Health Honor Society
2005 **Early Career Honorary Recognition Award** – Society of Behavioral Medicine
2003 **Citation Paper Award** - Society of Behavioral Medicine Annual Meeting, Salt Lake City, UT
2000 **Citation Paper Award** - Society of Behavioral Medicine Annual Meeting Nashville, TN
1999 **Psychology Postdoctoral Fellow Research Award** - Brown School of Medicine
1994 **Graduate Research Development Award** - Masters Thesis
1993 **Phi Kappa Phi** National Honor Society

Identifying Strategies for Effective Weight Management in Diverse Interventions

The Early Adult Reduction of weight through LifestYle (EARLY) Consortium is a set of randomized intervention trials funded by the NIH to evaluate interventions designed to reduce weight or prevent unhealthy weight gain in young adults. Each of 7 participating sites across the United States developed their own intervention(s) using a variety of behavioral strategies and including technologies used by young adults. This proposal will use an innovative process to identify behavioral strategies across studies that lead to successful weight management.

Effective Communication on Tobacco Product Risk and FDA Authority

The purpose of this grant is to establish a Center for Regulatory Research on Tobacco Communication. Overall Center aims are to (1) characterize the public's awareness and beliefs about tobacco products and FDA regulatory authority through mixed methods approaches, using focus groups and multiple population-based telephone surveys of 9,200 adults and adolescents in the Southeast, (2) create potent messages on risk and FDA authority, (3) conduct RCTs that assess messages' impact on

tobacco use intentions and behaviors in real world contexts, and (4) build capacity for tobacco communication research through training programs and dissemination activities.

Prevention of Weight Gain in Young Adults

The purpose of the project is to test two interventions to prevent weight gain in young adults compared to control. One intervention is focused on making small consistent changes in eating and exercise

behavior to prevent weight gain and the other emphasizes periodic larger changes in eating and exercise behavior that results in weight loss.

A Transgenerational e-Intervention for Gestational Diabetics and their Offspring

We propose an intervention that starts during pregnancy and extends seamlessly through the first 6 postpartum months- a critical metabolic period for the mother-child dyad. Our specific aims are to : 1) with input from women with current or recent GDM, develop a theory-driven healthy lifestyle intervention, e-GDM, that is delivered via state of the art computer technologies, coupled with periodic in person group visits; 2) conduct a small pilot RCT of the intervention versus usual care on a) measures of maternal and infant outcomes, b) process outcomes, and 3) conduct a preliminary assessment of intervention effects to calculate effect sizes to design a larger scale trial.
