

(ESE 2005)

James K. Edzwald recipient of the 2005 Distinguished Alumnus Award

The Department of Environmental Sciences and Engineering is pleased to announce Dr. James K. Edzwald as the recipient of an ESE Distinguished Alumnus Award for 2005 and featured guest at the Department's biannual Open House held on October 15, 2005.

Edzwald has held positions at several universities during his distinguished career and is currently a professor in the Department of Civil and Environmental Engineering at the

University of Massachusetts, Amherst. Edzwald received his BS in Civil Engineering in 1964 and his MS in Environmental Health Engineering in 1968 from the University of Maryland.

He received his PhD in Water Resources Engineering in 1972 from UNC. Edzwald has made substantial contributions to the peer reviewed literature in water resources including development of indicators for Total Organic Carbon and improvements in the use of coagulation, filtration and dissolved

air flotation for drinking water treatment. He has served as a consultant on numerous water projects. During his academic career, he has advised and taught students at the undergraduate, masters, and doctoral level. His receipt of several teaching awards has recognized the quality of his instruction. Edzwald received the A.P. Black Research Award from the AWWA for his career contributions to the field of water science and water supply.
