

## +1 MPH/MS/MSPH Course Check Sheet and Contract

**Prospective +1 Student (full name):** \_\_\_\_\_

**PID:** \_\_\_\_\_ **UNC email:** \_\_\_\_\_

The Department of Environmental Sciences and Engineering offers a “+1” Master’s program allowing UNC STEM majors to complete a five-year Bachelor’s to Master’s program at UNC-Chapel Hill.

To complete the MS degree, **9** graduate-level (>400-level) credit hours must be transferred from undergraduate coursework. To complete the MPH or MSPH, **12** graduate-level credit hours must be transferred. Note that these are over and above the hours required to complete the student’s bachelor’s degree. It is highly recommended that the student identify an advisor well in advance and have made progress in their research before matriculating into the master’s program. Any changes to approved course work must be re-approved and initialed by the advisor and DGS\*.

For MS/MSPH Statement of general area of proposed research: \_\_\_\_\_
