GRANTS

Awarded

8/2019 - 7/2024

1K01CA242530

Modeling the Public Health Impact of a National Menthol Cigarette Ban

National Cancer Institute, Mentored Research Scientist Career Development Award in Tobacco Regulatory Research

Role: **Principal Investigator** (\$728,000)

The goal of this project is to develop a microsimulation model to estimate the impact of a national menthol cigarette ban on tobacco use and tobacco-related disease, specifically cardiovascular disease and tobacco-related cancers, in the United States.

8/2019 - 3/2023

1P01CA225597

Advancing Science and Practice in the Retail Environment

National Cancer Institute

Role: **Co-Investigator** (\$11,607,149)

The goal of the Advancing Science and Practice in the Retail Environment Program Project is to build a rigorous, scientific evidence base for effective tobacco control in the retail environment to reduce tobacco use, tobacco-related disparities, and the public health burdens of tobacco including tobacco-related cancers. I lead a national study examining the relationship between tobacco retailer density and neighborhood demographic composition in the US over a period close to two decades.

9/2020 - 8/2027

U24HL151308

Coordinating Center for the DECIPHeR Network

National Heart, Lung, and Blood Institute

Role: **Co-Investigator** (\$746,776)

The Coordinating Center for the DECIPHeR Network supplies cross-study research coordination, promotes dissemination of research findings and initiates partnerships across the DECIPHeR Alliance, a group of institutions funded to test implementation strategies to increase the reach and uptake of evidence-based interventions in communities with a high burden of heart and/or lung disease.

Completed

9/2020 - 8/2021

5U54CA156735

NCCU-LCCC Partnership Bridge Pilot Funding, Population Science

A community health assessment of smokers living in public housing

National Cancer Institute

Role: **Co-Principal Investigator** (\$55,000)

Bridge funding was provided to support the development of a grant application that proposes to conduct a community health assessment of smokers living in Department of Housing and Urban Development-supported public housing.

10/2020 - 9/2021

5P01CA225597

Advancing Equity in Tobacco Control

National Cancer Institute, Advancing Science and Practice in the Retail Environment Pilot Grant

Role: **Principal Investigator** (\$10,000)

The goal of this project was to conduct a systematic review of studies published in the past decade that examine the equity impacts of tobacco control policy interventions.

9/2015 - 6/2016

1 F31 CA189625-01A1

Predictors of Cancer-risk Behaviors among Hispanic Americans

National Cancer Institute, Ruth L. Kirschstein National Research Service Award for Individual Predoctoral Fellowships to Promote Diversity in Health-Related Research (F31 – Diversity)

Role: **Principal Investigator** (\$26,000)

The goal of this project was to examine the relationship between acculturation, the built environment (tobacco retailer density, access to open spaces, retail food environment, and health-related quality of life in a community sample of Hispanic Americans.

7/2015 - 9/2015 (terminated early to accept NCI F31 grant) **No Grant Number**

Predictors of Tobacco Use in Hispanic Americans

Tobacco-related Disease Research Program, Dissertation Research Award

Role: **Principal Investigator** (\$30,000)

The goal of this project was to examine the relationship between acculturation, tobacco retailer density, and health-related quality of life in a community sample of Hispanic Americans.

6/2014 - 7/2014

No Grant Number

Trajectories of Disability in Patients with Systemic Sclerosis

Rheumatology Research Foundation, Health Professional Research Preceptorship

Role: **Principal Investigator** (\$4,000)

This project used latent growth mixture modeling to identify trajectories of disability over time in a sample of patients with systemic sclerosis, a rare autoimmune disease.
