How Women Lead in the Business of Health

Join us virtually to engage, network, and learn from a talented and diverse group of past, present, and future Tar Heels!

The UNC Center for the Business of Health (CBOH) and the 100 Women Initiative at UNC Kenan-Flagler are teaming up to host a virtual event to kick off a series of events geared toward highlighting and amplifying women business leaders in the healthcare industry and beyond. These events will bring together alumnae, current students, and prospective students to discuss the experiences and knowledge from top women leaders, opportunities in the industry, and how a MBA and other dual degree opportunities can support career goals. All are welcome to attend, including those outside of healthcare and anyone interested in becoming more involved in the 100 Women Initiative.
