TEACHING AND ADVISING ACTIVITIES

Courses taught at UNC

MHCH 862 (001) Program Impact Evaluation

Analytic skills doctoral course on the theory and practice of program impact evaluation. Topics: The impact evaluation question; issues to consider when evaluating program impact: finding a proxy for the counterfactual; confounding, selectivity, spillovers, contamination, heterogeneous effects, statistical power, and sample size; external validity; research designs: experimental designs, difference-in-differences models, matching methods, instrumental variables, regression discontinuity analysis, and sample selection models. Preparation of an impact evaluation proposal.

Taught every Spring semester 2004-2009 and 2012-2023.
