NORA Interdisciplinary Webinar Fall 2023 Series

Please join us as we proudly present our upcoming fully virtual webinars in Fall 2023! Registration is open to everyone and completely FREE. The webinars will be recorded, and recordings will be posted to NC OSHERC’s Outreach and Continuing Education webpage.

**Occupational epidemiology in practice: Understanding pesticide-cancer risk in the Agricultural Health Study cohort and learned lessons**

Richard Remigio, PhD, MS

October 26, 2023 | 11:00am to 12:00pm EST

Dr. Remigio is a postdoctoral fellow at the National Cancer Institute in the Division of Cancer Epidemiology and Genetics, focused on occupational and environmental epidemiology research topics. He studies pesticide-cancer risks among applicants and spouses in the Agricultural Health Study cohort under the mentorship of Dr. Laura Beane Freeman. He also researches climate-driven exposures such as precipitation conditions, wildfires, and cancer-related outcomes.

**Testing the Validity of 2D and 3D Design Information for Pre-Incident Emergency Response Plans**

Dylan Hardison, PhD

December 8, 2023 | 11:00am to 12:00pm EST

Dr. Dylan Hardison is an Assistant Professor in the Department of Technology Systems within the College of Engineering and Technology at East Carolina University. Dr. Hardison is the program coordinator of the Master of Science in Occupational Safety program at ECU. His research focuses on identifying methods to improve construction workers' hazard identification skills using construction design information and facilitating pre-incident emergency response plans for various emergency scenarios. Dr. Hardison is an active volunteer firefighter with Sand Hill Volunteer Fire Department. Dr. Hardison and his wife Jessica have three girls under six years old and like to spend their time outdoors fishing and raising their backyard chickens.
