

# 2018 ESE DISTINGUISHED ALUMNUS

## AWARD PRESENTATION AND SEMINAR

### **Kellogg Schwab, PhD**

(MS '91 and PhD '95)

Abel Wolman Professor in Water and Public Health,  
Department of Environmental Health and  
Engineering, Johns Hopkins University Bloomberg  
School of Public Health; Director of the JHU Water  
Institute

**November 7**

**12:20 PM**

NC Blue Cross Blue Shield Auditorium  
(0001 Michael Hooker Research Center)

### **Water, Sanitation and Hygiene (WASH) in the Era of Environmental Stressors: US Water Reuse and International Assessments of WASH**

The world faces critical issues relating to water, sanitation and hygiene (WASH) as the result of human pressures and climate trends. In high income countries, water reuse will be a linchpin for sustainable potable water and a driver for agriculture and industry cost-effective practices. Worldwide, the Sustainable Development Goals (SDGs) have been an important global development approach that is driving national policies on WASH. This seminar will bridge water reuse in the US with international WASH assessment, highlighting evidence-based research designed to improve public health worldwide.
