## Emergency preparedness in the classroom: Staying safe at Gillings

The best way to prepare for an emergency is to *plan ahead*.

Faculty will stop teaching immediately upon Alert Carolina notification to shelter in place.

Practice how to lock the classroom door and turn off the lights.

In a situation in which someone intends harm, think ahead of what you would do if the circumstances require you to *run, hide or fight*. Course syllabus provides additional details.

If you see something, *SAY SOMETHING* to your instructor, DPS security guard, program director etc.
